- Field administration of whole blood and blood components by JFRD offers patients improved survival rates, especially for hemorrhage-related trauma and long transport times.

Firefighter Personal Protective Equipment

- JFRD will be purchasing two sets of structural firefighting ensembles, or PPE, for all of our firefighters.
- The PPE we have selected will be made with the newest products available today.
- This gear meets the newest NFPA 1970 Standard and is manufactured without added PFAS.

Glance Traffic Preemption

- The Glance Traffic Preemption System allows emergency vehicles to communicate with traffic signals through GPS and cellular technology.

 - Indiantown / Center St.
 - Indiantown / Palm Rd.
 - Indiantown / Central Blvd.
 - Indiantown / 67th Rd N (Jupiter West Plaza)
 - Indiantown / Island Way
- This will significantly improve safety and emergency response in the busiest and most congested area of Indiantown Road.

Station & Call Alerting

- The Locution station alerting system is technology that takes the 911 call address, call type, and the units that are assigned from the dispatch software and quickly and accurately announces that call information simultaneously over the fire rescue radio system and in the fire stations.
- The Locution system installation will be completed as part of the station construction at the Piatt and Cinquez Fire Stations.

5. Authorizing the purchase of medical supplies and pharmaceuticals with Henry Schein, Inc., using a piggyback of the Lake County contract.
6. Authorizing the purchase of medical supplies and pharmaceuticals with Life-Assist, Inc., using a piggyback of the Lake County contract.

Councilor Sundstrom asked for clarification on the supply chain redundancy and the use of three separate vendors for medical supplies and pharmaceuticals. Mr. Reynolds explained that maintaining redundancy is important to ensure cost savings and to ensure product availability.

Councilor Sundstrom then inquired whether there were any current delays in any of the supply categories. Fire Chief Donatto stated that a few items currently have a three-month delivery window. He added that staff were aware and monitoring these timelines and were placing orders accordingly in order to avoid shortages.

Councilor Sundstrom noted that some items like cardiac monitors involve data sharing, and the Town would need mutual aid agreements in place with other departments or hospitals. She asked whether all Fire Departments use the same system or if there were differences among them, and how it would work in terms of a seamless response. Fire Chief Donatto responded that there were three different vendors, and that some entities use different devices. He clarified that the data sharing would occur only with hospitals, and the ability to transmit data to the hospitals could be done by all vendors.

Councilor Sundstrom moved to approve items four, five, and six; seconded by Vice-Mayor Delaney; motion passed.

To Whom It May Concern:

This is to confirm that Locution Systems, Inc. of Golden, Colorado, is currently the only manufacturer, distributor, retailer, or provider of an automated voice dispatching system that provides digitally recorded, complete word and phrase-based human voice automated dispatch messages. This system meets the advanced requirements for Fire and EMS emergency dispatching, including no dependence on cloud availability. This automated alerting technology has been developed by Locution specifically for alerting and dispatching Fire and EMS station personnel.

Keys to this technology, shared by no other station alerting system, are:

1. The system does not require an adaptation period to create a full dispatch announcement. This is because it is word and phrase-based human voice. The voice database is stored at each station and the communication center for redundancy and speed.
2. The system is the only such system that provides full dispatch announcement understandability to the high level required by Fire/EMS departments that is not cloud based. This is also due to it being word and phrase-based human voice.
3. The system is the only system that provides allowance for greater than 99% accuracy. Each street name, incident, and unit name are specifically run through a record/review process at Locution operations with a final review process at the department. Each element can be matched precisely to the required way it needs to be said, including special localized pronunciations.

All three points above: minimal interpretation lag with redundancy, very high understandability with no dependence on cloud availability, and high announcement accuracy are required for EMS and Public Safety Operations in order to help minimize response times and also minimize misunderstood dispatches. No other station alerting system provides all three of the above, a requirement for acceptable automated Fire and EMS dispatch operation. This connects to the already established dispatch center.

Sincerely,

This system utilizes unique hardware and software to offer a specific suite of features, including automated voice dispatch, zoned station alerting, and automated control of auxiliary station systems (e.g., lights, bay doors, gas stoves). How/When to Respond: Any vendor who believes it can meet or exceed the above-referenced project scope is requested to provide information regarding the vendor's ability to perform the work. TOWN OF JUPITER
Purchase Order for to Furnish Low Voltage Cabling for the JFRD Fire Stations

DATE	October 21, 2025
TO	Honorable Mayor and Members of Town Council
THRU	Frank Kitzerow, Town Manager
FROM	Karl Craig, Information Systems Director
SUBJECT	Approving a Purchase Order with Universal Cabling Systems, Inc. for \$143,761.00 to Furnish and Install Low Voltage Cabling for the JFRD Fire Stations

EXECUTIVE SUMMARY

Town staff is requesting Town Council's approval to award the successful low bidder, Universal Cabling Systems, Inc. a purchase order in the amount of \$143,761.00 to furnish and install low voltage cabling for the JFRD Fire Stations under construction.

Publicly advertised competitive bids were solicited via EUNA OpenBids, formally DemandStar (www.DemandStar.com), from qualified vendors capable of completing the work. A total of six (6) bids were received, four (4) of which were deemed non-responsive and incomplete due to missing information and required materials in the bids preventing the evaluation committee from assessing the bids fairly.

Qualified bids were received from two (2) companies and each was evaluated and reviewed for accuracy, completeness, ability to perform the work, and ability to meet the demands of the construction schedule. The evaluation committee discussed and rated each submittal using the selection criteria that were provided in the RFP, which included references, proposal quality, and total bid amount to arrive at a final score and selection.

Based on a high score of 267 out of a possible 300 points, the committee unanimously selected Universal Cabling Systems, Inc. as the awardee pursuant to Town Council's approval. This project consists of all materials and labor needed to outfit the fire stations with all network cabling, network jacks, faceplates, and wire management and uninterruptable power supplies to create the physical internal computer network to run all desktop computers, phones, fire rescue specific systems, access control and security cameras making each station operational.

Funding for this project was appropriated in the FY2026 CIP budget.

ANALYSIS

Answer: Please add the WAP location to FR Piatt – Decon Room 112

Question: On the RFP it has an estimated count of 156 CAT 6 Cables for WAPs, CAMs, Workstations, Phones, but the plans have apx. 181 CAT 6 Cables for these - which do we follow?

Answer: Drawing pages T-101 & T-102 for both buildings have been annotated with highlights to indicate the most up to date requirements and counts

Answer: Drawing pages T-101 & T-102 for both buildings have been annotated with highlights to indicate the most up to date requirements and counts

Answer: Fiber optic work is outside the scope of this RFP

Question: -Faceplates: The drawings say "ALL FACEPLATES SHALL HAVE 6 SPACES FOR TERMINATION MODULES." [page T-001 Systems Symbol Legend]. But on the RFP [page 70 2.1.B] The Approved Part# provided (Leviton Part Number 42080-2WS) is for a 2 port faceplate.

- 38 access control drops
- (2) two-post network racks
- (2) rackmount UPS units

However, the plans do not identify any drop locations, MDF/IDF rooms, workstation locations, WAPs, phones, or access control locations. Can you confirm where this information might be found?

Answer: Drawing pages T-101 & T-102 for both buildings have been annotated with highlights to indicate the most up to date requirements and counts

- C. Contents of Solicitation and Vendors' Responsibilities: The Vendor shall be thoroughly familiar with the requirements of this solicitation. Ignorance of these matters by the Vendor will not be accepted as a basis for varying the requirements of the County, or the compensation to be paid.
- E. Restricted Discussions: From the date of solicitation issuance until final County action, Vendors will not discuss any part of the solicitation with any employee, agent, or other representative of the County except as expressly authorized by the designated procurement representative. The only communications that will be considered pertinent to a solicitation are appropriately signed written documents from the Vendor to the designated procurement representative and any relevant written document promulgated by the designated procurement representative.
- F. Changes to Proposal: Prior to the scheduled due date, a Vendor may change its Proposal by submitting a new one with a letter on the firm's letterhead, signed by an authorized agent stating that the new submittal replaces the original. The new submittal must contain the letter and all information as required in the solicitation.
- G. Withdrawal of Proposal: A Proposal will be irrevocable unless it is withdrawn as provided in a solicitation. A Proposal may be withdrawn, either physically or by written notice, at any time prior to solicitation award. If withdrawn by written notice, that notice must be addressed to, and received

It is incumbent upon the Vendor to identify such conflicts to the designated procurement representative prior to the Proposal due date.
- I. Prompt Payment Terms: Payment for all purchases by County agencies will be made in a timely manner and interest payments will be made on late payments in accordance with Part VII, Chapter 218, Florida Statutes, known as the Florida Prompt Payment Act. The Vendor may offer cash discounts for prompt payments; however, such discounts will not be considered in determining the lowest price during Proposal evaluation.

PREPARATION OF PROPOSALS

- A. The pricing section of a solicitation defines requirements of items to be purchased and must be completed and submitted with the Proposal. Use of any other form or alteration of the form may result in rejection of the Proposal.
- B. The Proposal submitted must be legible. Vendors shall type or use an ink to complete the Proposal. All changes must be crossed out and initialed in ink. Failure to comply with these requirements may cause the bid to be rejected.
- C. An authorized agent of the Vendor's firm must sign the Proposal. The County may reject any Proposal not signed by an authorized agent.
- D. The Vendor may submit alternate Proposals for the same solicitation provided that such offer is allowable under the terms and conditions. The alternate Proposal must meet or exceed the minimum requirements and be submitted as a separate Proposal marked "Alternate Proposal."
- E. When there is a discrepancy between the unit prices and any extended prices, the unit prices will prevail. The County reserves the right to allow for clarification of questionable entries and the correction of obvious mistakes.

COLLUSION

Where two (2) or more related parties each submit a Proposal for the same contract, such Proposals will be presumed to be collusive. Furthermore, any prior understanding, agreement, or connection between two (2) or more corporations, firms, or persons submitting a Proposal for the same materials, supplies, services, or equipment will also be presumed to be collusive. Proposals found to be collusive will be rejected. Vendors which have been found to have engaged in collusion may be considered non-responsible and may be suspended or debarred. Any contract resulting from collusive bidding may be terminated for default.

PROHIBITION AGAINST CONTINGENT FEES

The Vendor warrants that they have not employed or retained any company or person, other than a bona fide employee working solely for the Vendor to solicit or secure the Contract and that they have not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for the Vendor, any consideration contingent upon or resulting from the award or making of the Contract.

CONTRACTING WITH COUNTY EMPLOYEES

Any County employee or immediate family member seeking to contract with the County shall seek a conflict of interest opinion from the County Attorney prior to submittal of a Proposal. The affected employee shall disclose the employee's assigned function within the County and interest or the interest of his or her immediate family in the proposed contract and the nature of the intended contract.

- F. The Vendor's performance as a Contractor or subcontractor on previous County contracts will be considered in evaluating the responsibility of the Vendor.
- G. Any tie situations will be resolved in consonance with current written County procedure.

The Contract may not be amended, released, discharged, rescinded or abandoned, except by a written instrument duly executed by the parties. The failure of any party at any time to enforce any of the provisions of the Contract will in no way constitute or be construed as a waiver of such provision or of any other provision of the Contract, nor in any way affect the validity of, or the right to enforce, each and every provision of the Contract. Any dispute arising during Contract performance that is not readily rectified by coordination between the Contractor and the County user department will be referred to Procurement Services.

GOVERNING LAW

The special conditions of a solicitation may supersede the manufacturer's standard warranty.

DEFICIENCIES IN WORK TO BE CORRECTED BY THE CONTRACTOR

must be made within seven (7) calendar days after such rejected defects, deficiencies, or non-conformances are verbally reported to the Contractor by the County's project administrator. Contractor must bear all costs of correcting such rejected work. If the Contractor fails to correct the work within the period specified, the County may, at its discretion, notify the Contractor, in writing, that the Contractor is subject to contractual default provisions if the corrections are not completed to the satisfaction of the County within seven (7) calendar days of receipt of the notice. Any goods or services purchased as a result of a solicitation or Contract may be tested/inspected for compliance with specifications. In the event that any aspect of the goods or services provided is found to be defective or does not conform to the specifications, the County reserves the right to terminate the Contract or initiate corrective action on the part of the Contractor, to include return of any non-compliant goods to the Contractor at the Contractor's expense, requiring the Contractor to either provide a direct replacement for the item, or a full credit for the returned item. All existing structures, utilities, services, roads, trees, shrubbery, and property in which the County has an interest must always be protected against damage or interrupted services by the Contractor during the term of a Contract. The Contractor will be held responsible for repairing or replacing property to the satisfaction of the County which is damaged by reason of the Contractor's operation on the property. In the event the Contractor fails to comply with these requirements, the County reserves the right to secure the required services and charge the costs of such services back to the Contractor.

Any Vendor that submits an offer in response to a County solicitation shall, at the time of such offer if required, hold a valid Certificate of Competency or appropriate current license issued by the State or County Examining Board qualifying the Vendor to perform the work proposed. If work for other trades is required in conjunction with a solicitation, and such work will be performed by subcontractors hired by the Vendor, an applicable Certificate of Competency/license issued to the subcontractors must be submitted with the Vendor's offer. The County may at its option and in its best interest, allow the Vendor to supply the subcontractors certificate/license to the County during the offer evaluation period. The Contractor is responsible to ensure that all required licenses, permits, and fees (to include any inspection fees) required for a project are obtained and paid for, and shall comply with all laws, ordinances, regulations, and building or other code requirements applicable to the work contemplated in a solicitation. The County may consider any evidence available to it of the financial, technical, and other qualifications and abilities of any Vendor responding under a solicitation, including past performance with the County. Vendors must have sufficient financial support and organization to ensure satisfactory delivery under the stated solicitation terms and conditions of any Contract awarded. In the event the Vendor intends to subcontract any part of its work or will obtain the goods specifically offered under the Contract from another source of supply, the Vendor may be required to verify the competency of its subcontractor or supplier. Price redeterminations will be based upon changes documented by the applicable Employment Cost Index (ECI) or Producer Price Index (PPI) as published on the [*Bureau of Labor Statistics site here*](#). Contractor may petition for price redetermination for Contractor's minimum wage employees should the minimum wage increase during the Contract. Upon verification, the County may grant an increase matching the minimum wage increase.

To the extent permitted by law, the Contractor shall indemnify and hold harmless the County and its officers, employees, agents and instrumentalities from any and all liability, losses or damages, including attorneys' fees and costs of defense, which the County or its officers, employees, agents or instrumentalities may incur as a result of claims, demands, suits, causes of actions or proceedings of any kind or nature arising out of, relating to or resulting from the performance of the Contract by the Contractor or its employees, agents, servants, partners, principals or subcontractors. The Contractor shall pay all claims and losses in connection with those claims and losses, and shall investigate and defend all claims, suits or actions of any kind or nature in the name of the County, where applicable, including appellate proceedings, and shall pay all costs, judgments, and attorneys' fees which may be incurred. The Contractor expressly understands and agrees that any insurance protection required by the Contract or otherwise provided by the Contractor will in no way limit the responsibility to indemnify, keep and hold harmless and defend the County or its officers, employees, agents and instrumentalities as provided in a solicitation or any Contract arising from a solicitation.

TERMINATION FOR CONVENIENCE

The County, at its sole discretion, reserves the right to terminate the Contract upon thirty (30) days' written notice. Upon receipt of such notice, the Contractor shall not incur any additional costs under the Contract. The County will be liable only for reasonable costs incurred by the Contractor prior to notice of termination. The County will be the sole judge of "reasonable costs."

TERMINATION DUE TO UNAVAILABILITY OF CONTINUING FUNDING

TERMINATION FOR DEFAULT

The County reserves the right to terminate any Contract arising from a solicitation, in part or in whole, or affect other appropriate remedy in the event the Contractor fails to perform in accordance with the terms and conditions stated in the Contract. The County further reserves the right to suspend or debar the Contractor in accordance with the County's ordinances, resolutions and administrative orders. The Contractor will be notified by letter of the County's intent to terminate and the Contractor will be given

ten (10) calendar days to cure the breach. In the event of termination for default, the County may procure the required goods and services from any source and use any method deemed in its best interest. All re-procurement costs will be borne by the Contractor.

FRAUD AND MISREPRESENTATION

The County reserves the right to require the Contractor to submit to an audit, by any auditor of the County's choosing. The Contractor shall provide access to all of its records, which relate directly or indirectly to the contract at its place of business during regular business hours. The Contractor shall retain all records pertaining to the contract and upon request make them available to the County for three (3) complete calendar years following expiration of the contract. The Contractor agrees to provide such assistance as may be necessary to facilitate the review or audit by the County to ensure compliance with applicable accounting and financial standards.

If the Contractor provides technology services, the Contractor must provide Statement of Standards for Attestations Engagements (SSAE) 16 or 18 and System and Service Organization Control (SOC) reports upon request by the County. The SOC reports must be full Type II reports that include the Contractor's description of control processes, and the independent auditor's evaluation of the design and operating effectiveness of controls. The cost of the reports will be paid by the Contractor.

If an audit inspection or examination pursuant to this section discloses overpricing or overcharges of any nature by the Contractor to the County in excess of one percent (1%) of the total contract billings, in addition to making adjustments for the overcharges, the reasonable actual cost of the County's audit must be reimbursed to the County by the Contractor. Any adjustments or payments which must be made as a result of any such audit or inspection of the Contractor's invoices or records must be made within a reasonable amount of time, but in no event may the time exceed ninety (90) calendar days, from presentation of the County's audit findings to the Contractor.

- C. **Contents of Solicitation and Vendors' Responsibilities:** The Vendor shall be thoroughly familiar with the requirements of this solicitation. Ignorance of these matters by the Vendor will not be accepted as a basis for varying the requirements of the County, or the compensation to be paid.
- E. **Restricted Discussions:** From the date of solicitation issuance until final County action, Vendors will not discuss any part of the solicitation with any employee, agent, or other representative of the County except as expressly authorized by the designated procurement representative. The only communications that will be considered pertinent to a solicitation are appropriately signed written documents from the Vendor to the designated procurement representative and any relevant written document promulgated by the designated procurement representative.
- F. **Changes to Proposal:** Prior to the scheduled due date, a Vendor may change its Proposal by submitting a new one with a letter on the firm's letterhead, signed by an authorized agent stating that the new submittal replaces the original. The new submittal must contain the letter and all information as required in the solicitation.

- H. Conflicts within the Solicitation: Where there appears to be a conflict between the General Terms and Conditions, Special Conditions, the Technical Specifications, the Pricing Section, or any addendum issued, the order of precedence will be: the last addendum issued, the Proposal Price Section, the Technical Specifications, the Special Conditions, and then the General Terms and Conditions. It is incumbent upon the Vendor to identify such conflicts to the designated procurement representative prior to the Proposal due date.
- I. Prompt Payment Terms: Payment for all purchases by County agencies will be made in a timely manner and interest payments will be made on late payments in accordance with Part VII, Chapter 218, Florida Statutes, known as the Florida Prompt Payment Act. The Vendor may offer cash discounts for prompt payments; however, such discounts will not be considered in determining the lowest price during Proposal evaluation.

PREPARATION OF PROPOSALS

- A. The pricing section of a solicitation defines requirements of items to be purchased and must be completed and submitted with the Proposal. Use of any other form or alteration of the form may result in rejection of the Proposal.
- B. The Proposal submitted must be legible. Vendors shall type or use an ink to complete the Proposal. All changes must be crossed out and initialed in ink. Failure to comply with these requirements may cause the bid to be rejected.
- C. An authorized agent of the Vendor's firm must sign the Proposal. The County may reject any Proposal not signed by an authorized agent.
- D. The Vendor may submit alternate Proposals for the same solicitation provided that such offer is allowable under the terms and conditions. The alternate Proposal must meet or exceed the minimum requirements and be submitted as a separate Proposal marked "Alternate Proposal."
- E. When there is a discrepancy between the unit prices and any extended prices, the unit prices will prevail. The County reserves the right to allow for clarification of questionable entries and the correction of obvious mistakes.
- F. Any Proposal received after the designated receipt date will be considered late and will not be considered for award.

COLLUSION

Where two (2) or more related parties each submit a Proposal for the same contract, such Proposals will be presumed to be collusive. Furthermore, any prior understanding, agreement, or connection between two (2) or more corporations, firms, or persons submitting a Proposal for the same materials, supplies, services, or equipment will also be presumed to be collusive. Proposals found to be collusive will be rejected. Vendors which have been found to have engaged in collusion may be considered non-responsible and may be suspended or debarred. Any contract resulting from collusive bidding may be terminated for default.

PROHIBITION AGAINST CONTINGENT FEES

The Vendor warrants that they have not employed or retained any company or person, other than a bona fide employee working solely for the Vendor to solicit or secure the Contract and that they have not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for the Vendor, any consideration contingent upon or resulting from the award or making of the Contract.

LAKE COUNTY, FLORIDA – GENERAL TERMS AND CONDITIONS

CONTRACTING WITH COUNTY EMPLOYEES

Any County employee or immediate family member seeking to contract with the County shall seek a conflict of interest opinion from the County Attorney prior to submittal of a Proposal. The affected employee shall disclose the employee's assigned function within the County and interest or the interest of his or her immediate family in the proposed contract and the nature of the intended contract.

INCURRED EXPENSES

A solicitation does not commit the County to make an award nor will the County be responsible for any cost or expense which may be incurred by any Vendor in preparing and submitting a Proposal, or any cost or expense incurred by any Vendor prior to the execution of a purchase order or contract.

AWARD

- A. The Contract resulting from a solicitation may be awarded to the responsible Vendor which submits a Proposal determined to provide the best value to the County with price, technical, and other applicable factors considered. The County reserves the right to reject any and all Proposals, to waive irregularities or technicalities, and to re-advertise for all or any part of this solicitation as deemed in its best interest. The County will be the sole judge of its best interest.
- B. When there are multiple line items in a solicitation, the County reserves the right to award on an individual item basis, any combination of items, total low bid, or in whichever manner deemed in the best interest of the County. This provision specifically supersedes any method of award criteria stated in the solicitation when such action is necessary to protect the best interests of the County.
- C. The County reserves the right to reject any and all Proposals if it is determined that prices are excessive or determined to be unreasonable, or it is otherwise determined to be in the County's best interest to do so.
- D. The County reserves the right to reject offers containing terms or conditions contradictory to the County's.
- E. Award of a solicitation will be made to firms satisfying all necessary legal requirements to do business with the County. The County may conduct a pre-award inspection of the Vendor's site or hold a pre-award qualification hearing to determine if the Vendor can perform the requirements of a solicitation.
- F. The Vendor's performance as a Contractor or subcontractor on previous County contracts will be considered in evaluating the responsibility of the Vendor.
- G. Any tie situations will be resolved in consonance with current written County procedure.
- H. The County has imposed a reciprocal match local vendor preference practice to ensure an equal procurement environment for all potential vendors unless prohibited by the funding source. More information is available on [Section 2-222, Local Vendor Preference](#).
- I. Award of the contract resulting from this solicitation may be predicated on compliance with and submittal of all required documents as stipulated in the solicitation.
- J. A Vendor wishing to protest any award decision resulting from a solicitation may do so per the [Procurement Protest Procedures site](#).

GRANT FUNDING

In the event any part of a Contract is to be funded by federal, state, or other local agency monies, the Vendor hereby agrees to comply with all requirements of the funding entity applicable to the use of the monies, including full application of requirements involving the use of minority firms, women's business enterprises, and labor surplus area firms. Contractors are advised that payments under the Contract may

LAKE COUNTY, FLORIDA – GENERAL TERMS AND CONDITIONS

be withheld pending completion and submission of all required forms and documents required of the Contractor pursuant to the grant funding requirements.

STATE REGISTRATION REQUIREMENTS

Any entity conducting business in Florida shall either be registered or have applied for registration with the Florida Department of State in accordance with Florida law, unless exempt from registration. A copy of the registration may be required prior to award of a Contract. Additional information is available by visiting the [Florida Department of State home page](#).

PRIME CONTRACTOR

The Vendor awarded a Contract shall act as the Prime Contractor and will assume full responsibility for the successful performance under the Contract. The Awarded Vendor (Contractor) will be considered the sole point of contact regarding meeting all requirements of the Contract. All subcontractors may be subject to advance review by the County regarding competency and security concerns. No change in subcontractors may be made without the consent of the County after the award of the Contract. Contractor will be responsible for all insurance, permits, licenses, and related matters for any and all subcontractors. County may require the Contractor to provide any insurance certificates required by the work to be performed even if the subcontractor is self-insured.

SUBCONTRACTING

Unless otherwise stipulated in a solicitation, the Contractor shall not subcontract any portion of the work without the prior written consent of the County. Subcontracting without the prior consent of the County may result in termination of the Contract for default.

DISADVANTAGED BUSINESSES

The County has adopted policies which assure and encourage the full participation of Disadvantaged Business Enterprises (DBE) in the provision of goods and services. The County encourages joint ventures between majority-owned firms and qualified disadvantaged/minority/women-owned firms.

GENERAL CONTRACT CONDITIONS

The Contract will be binding upon and will inure to the benefit of each of the parties and respective successors and permitted assigns. The Contract may not be amended, released, discharged, rescinded or abandoned, except by a written instrument duly executed by the parties. The failure of any party at any time to enforce any of the provisions of the Contract will in no way constitute or be construed as a waiver of such provision or of any other provision of the Contract, nor in any way affect the validity of, or the right to enforce, each and every provision of the Contract. Any dispute arising during Contract performance that is not readily rectified by coordination between the Contractor and the County user department will be referred to Procurement Services.

GOVERNING LAW

The interpretation, effect, and validity of any contract will be governed by the laws and regulations of the State of Florida, and Lake County, Florida. Venue of any court action will be solely in Lake County, Florida. The Contractor hereby waives its right to a jury trial.

COMPLIANCE OF LAWS, REGULATIONS, AND LICENSES

The Contractor shall comply with all federal, state, and local laws and regulations applicable to provision of the goods or services specified in a solicitation. During the term of a Contract, the Contractor assures that it is in compliance with Title VII of the 1964 Civil Rights Act, as amended, and the Florida Civil Rights Act of 1992, in that the Contractor does not on the grounds of race, color, national origin, religion, sex, age, disability or marital status, discriminate in any form or manner against its employees or

LAKE COUNTY, FLORIDA – GENERAL TERMS AND CONDITIONS

applicants for employment. The Contractor understands that any Contract is conditioned upon the veracity of this statement.

CONTRACT EXTENSION

The County has the unilateral option to extend a Contract for up to ninety (90) calendar days beyond the current Contract period. In such event, the County will notify the Contractor in writing of such extensions. The Contract may be extended beyond the initial ninety (90) day extension upon mutual agreement between the County and the Contractor. Exercise of the above options requires the prior approval of the Procurement Services Director.

MODIFICATION OF CONTRACT

Any Contract resulting from a solicitation may be modified by mutual consent of duly authorized parties, in writing through the issuance of a modification to the Contract or purchase order as appropriate. This presumes the modification itself complies with all applicable County procedures.

ASSIGNMENT

The Contractor shall not assign or transfer any Contract resulting from a solicitation, including any rights, title or interest in the Contract, or its power to execute such Contract to any entity without the prior written consent of the County. This provision includes any acquisition or hostile takeover of the Contractor. Failure to comply may result in termination of the Contract for default.

NON-EXCLUSIVITY

It is the intent of the County to enter into an agreement that will satisfy its needs as described within a solicitation. However, the County reserves the right to perform, or cause to be performed, all or any of the work and services described in a solicitation in the manner deemed to represent its best interests. In no case will the County be liable for billings in excess of the quantity of goods or services provided under the Contract.

OTHER AGENCIES

Other governmental agencies may make purchases in accordance with the Contract with Contractor consent. Purchases are governed by the Contract's terms and conditions except for the change in agency name. Each agency will be responsible and liable for its own purchases for materials or services received.

CONTINUATION OF WORK

Any work that commences prior to, and will extend, beyond the expiration date of any Contract period must, unless terminated by mutual written agreement between the County and the Contractor, continue until completion without change to the then current prices, terms and conditions.

WARRANTY

All warranties express and implied, must be made available to the County for goods and services covered by a solicitation. All goods furnished must be fully guaranteed by the Contractor against factory defects and workmanship. They will be covered by the most favorable commercial warranty given for comparable quantities of products or services and the rights and remedies provided in the Contract will be in addition to the warranty and do not limit any right afforded to the County by any other provision of a solicitation. Contractor shall correct any and all apparent and latent defects that may occur within the manufacturer's standard warranty period at no expense to the County. The special conditions of a solicitation may supersede the manufacturer's standard warranty.

DEFICIENCIES IN WORK TO BE CORRECTED BY THE CONTRACTOR

Contractor shall promptly correct all apparent and latent deficiencies or defects in work, or any work that fails to conform to the Contract documents regardless of project completion status. All corrections

LAKE COUNTY, FLORIDA – GENERAL TERMS AND CONDITIONS

must be made within seven (7) calendar days after such rejected defects, deficiencies, or non-conformances are verbally reported to the Contractor by the County's project administrator. Contractor must bear all costs of correcting such rejected work. If the Contractor fails to correct the work within the period specified, the County may, at its discretion, notify the Contractor, in writing, that the Contractor is subject to contractual default provisions if the corrections are not completed to the satisfaction of the County within seven (7) calendar days of receipt of the notice. If the Contractor fails to correct the work within the period specified in the notice, the County may place the Contractor in default, obtain the services of another Contractor to correct the deficiencies, and charge the incumbent Contractor for these costs, either through a deduction from the final payment owed to the Contractor or through invoicing. If the Contractor fails to honor this invoice or credit memo, the County may terminate the contract for default.

COUNTY IS TAX-EXEMPT

When purchasing on a direct basis, the County is generally exempt from Federal Excise Taxes and all State of Florida sales and use taxes (85-8013874700C-1). Visit [Lake County Tax Exemption Certificate page](#) to print a copy of the certificate. Except for items specifically identified by the Contractor and accepted by the County for direct County purchase under the Sales Tax Recovery Program, Contractors doing business with the County are not exempt from paying sales tax to their suppliers for materials to fulfill contractual obligations with the County, nor will any Contractor be authorized to use any of the County's Tax Exemptions in securing such materials.

SHIPPING TERMS, F.O.B. DESTINATION

The F.O.B. point for any product ordered will be F.O.B.: DESTINATION – Inside Delivery, FREIGHT ALLOWED. The County will not consider any Proposal showing a F.O.B. point other than F.O.B.: Destination – Inside Delivery.

ACCEPTANCE OF GOODS OR SERVICES

The products delivered as a result of a solicitation will remain the property of the Contractor, and services rendered under the Contract will not be deemed complete, until a physical inspection and actual usage of the products or services is accepted by the County and is in compliance with the terms in the contract.

Any goods or services purchased as a result of a solicitation or Contract may be tested/inspected for compliance with specifications. In the event that any aspect of the goods or services provided is found to be defective or does not conform to the specifications, the County reserves the right to terminate the Contract or initiate corrective action on the part of the Contractor, to include return of any non-compliant goods to the Contractor at the Contractor's expense, requiring the Contractor to either provide a direct replacement for the item, or a full credit for the returned item. - C. Compliance with Regulations: The Contractor shall comply with the regulations relative to nondiscrimination in Federally-assisted programs of the USDOT, Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time, (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this Agreement.

1. Definitions. Capitalized terms used herein are defined as follows:

- (a) “Attachments” means the attachments, addenda, schedules, exhibits, and other documents, however so titled, attached hereto or incorporated by reference herein.
- (b) “Business Days” means Monday through Friday, inclusive, excluding State holidays specified in section 110.117, Florida Statutes (“F.S”).
- (c) “Contract” means the legally enforceable agreement between the Customer and Contractor to which this PUR 1000 form is attached, including all Attachments thereto. This term encompasses both written agreements and purchase orders, as each is defined in Rule 60A-1.001, Florida Administrative Code (“F.A.C.”).
- (d) “Contractor” means the person or entity that is a party to the Contract and is providing Products to the Customer.
- (e) “Customer” means the agency, as defined in section 287.012, F.S., that is a party to the Contract. For purchases off a term contract, as defined in section 287.012, F.S., this term also includes the eligible user, as defined in Rule 60A-1.001, F.A.C, that is a party to the Contract.
- (f) “Product” means any deliverable under the Contract, which may include commodities and contractual services, as each is defined in section 287.012, F.S. “Product” does not include, and no State funding under the Contract is being provided for, promoting, advocating for, or providing training or education on “Diversity, Equity, and Inclusion” (“DEI”). DEI is any program, activity, or policy that classifies individuals on the basis of race, color, sex, national origin, gender identity, or sexual orientation and promotes differential or preferential treatment of individuals on the basis of such classification, or promotes the position that a group or an individual’s action is inherently, unconsciously, or implicitly biased on the basis of such classification.

(g) "State" means the State of Florida.

2. Contract Formation and Amendment.

- a. Formation. If the Contract is a written agreement as defined in Rule 60A-1.001, F.A.C., the Contract is effective upon the date last signed by all parties, unless a different date is specified herein. If the Contract is a purchase order as defined in Rule 60A-1.001, F.A.C., the Contract is effective upon the date of issuance by the Customer to the Contractor, and the Contractor's performance under the purchase order is deemed to be acceptance of the terms thereof.
- b. Amendment. The Contract contains all the terms and conditions agreed upon by the parties and will govern all transactions between the parties. The Contract may only be amended upon mutual written agreement signed by both parties, or upon the Customer's issuance of a change order to a purchase order, as defined in Rule 60A-1.001, F.A.C., deemed to be accepted by the Contractor upon the continued performance thereof. No oral agreements or representations will be valid or binding upon either party. The Contractor may not unilaterally modify the terms of the Contract by affixing additional terms to the Product upon delivery (e.g., attachment or inclusion of standard preprinted forms, service agreements, end user agreements, product literature, "shrink wrap" terms accompanying or affixed to a product, whether written or electronic) or by incorporating such terms onto the Contractor's order or fiscal forms or other documents forwarded by the Contractor for payment. The Customer's acceptance of the Product or processing of documentation on forms furnished by the Contractor for approval or payment will not constitute acceptance of the proposed modification to the Contract terms and conditions.

The parties may, by amendment, modify the Contract to alter, add to, or deduct from the Contract specifications, provided that such changes are within the general scope of the Contract. The parties may make an equitable adjustment in the Contract price or delivery date if the change affects the cost or time of performance. The parties may also make an equitable adjustment in price if pricing or availability of supply is affected by extreme and unforeseen volatility in the marketplace, that is, by circumstances that satisfy all the following criteria: (1) the volatility is due to causes wholly beyond the Contractor's control, (2) the volatility affects the marketplace or industry, not just the particular Term Contract source of supply, (3) the effect on pricing or availability of supply is substantial, and (4) the volatility so affects the Contractor that continued performance of the Contract would result in a substantial loss.

If the Contract is a purchase off a term contract, as defined in section 287.012, F.S., the purchase is limited to Products offered under the Term Contract, and no additional Products may be provided under a purchase off the Term Contract.

3. Contract Construction and Administration.

- a. Construction. Unless the context requires otherwise, (i) the words "include," "includes," and "including" are deemed to be followed by the words "without limitation;" (ii) the word "or" is not exclusive; and (iii) the words "herein," "hereof," "hereby," "hereto," and "hereunder" refer to the Contract as a whole, inclusive of all Attachments. Unless the context requires otherwise, references herein to (i) sections or Attachments mean the sections of, or Attachments to, the Contract; (ii) an agreement, instrument, or other document means such

agreement, instrument, or other document as amended, supplemented, and modified from time to time to the extent permitted by the provisions thereof; and (iii) a statute, rule, or other law or regulation means such statute, rule, or other law or regulation as amended from time to time and includes any successor legislation thereto and any regulations promulgated thereunder. Unless the context requires otherwise, whenever the singular is used in the Contract, the same will include the plural, and whenever the plural is used herein, the same will include the singular, where appropriate. All references to "\$" or "dollars" means the United States Dollar, the official and lawful currency of the United States of America.

The Contract will be construed without regard to any presumption or rule requiring construction or interpretation against the party drafting an instrument or causing any instrument to be drafted. The Attachments referred to herein will be construed with, and as an integral part of, the Contract to the same extent as if they were set forth verbatim herein.

b. Administration.

- i. Execution in Counterparts. If the Contract is a written agreement as defined in Rule 60A-1.001, F.A.C., it may be executed in counterparts, each of which will be an original and all of which will constitute but one and the same instrument.
- ii. Warranty of Authority. Each person signing the Contract warrants that he or she is duly authorized to do so and to bind the respective party to the Contract. If the Contract is a purchase order, as defined in Rule 60A-1.001, F.A.C., the Contractor warrants that the individual established to receive the purchase order is authorized to do so and to bind the Contractor to the terms of the Contract.
- iii. Notices. Where the term "written notice" is used to specify a notice requirement herein, said notice will be deemed to have been given (i) when personally delivered; (ii) when transmitted via facsimile (with confirmation of receipt) or email (with confirmation of receipt); (iii) the day immediately following the day (except if not a Business Day then the next Business Day) on which the notice or communication has been provided prepaid by the sender to a recognized overnight delivery service; or (iv) on the date actually received except where there is a date of the certification of receipt.

Unless otherwise specified, each party shall deliver all notices to the other party's Contract Manager. Either party may notify the other by email of a change to a designated contact providing the contact information for the newly designated contact, and such notice is sufficient to effectuate this change without requiring a written amendment to the Contract or the issuance of a change order.

- iv. Severability. If a court deems any non-material provision of the Contract void or unenforceable, all other provisions will remain in full force and effect. Upon a determination that any material provision is void or unenforceable, the parties shall negotiate in good faith to modify this Contract to give effect to the original intent of the parties as closely as possible in order that the transactions contemplated hereby are consummated as originally contemplated to the greatest extent possible.
- v. Waiver. The delay or failure by the Customer to exercise or enforce any of its rights under the Contract will not constitute or be deemed a waiver of the Customer's right

thereafter to enforce those rights, nor will any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right.

- vi. **Survivability.** The Contract and any promises, covenants, and representations made herein are binding upon the parties hereto and all respective heirs, assigns, and successors in interest. The respective obligations of the parties, which by their nature would continue beyond the termination or expiration of the Contract, including without limitation, the obligations regarding overpayments, confidentiality, indemnity, proprietary interests, and public records, will survive termination or expiration of the Contract.
- vii. **Third Party Beneficiaries.** The parties acknowledge and agree that the Contract is for the benefit of the parties hereto and any permitted assignee. The Contract is not intended to confer any legal rights or benefits on any other party.

4. Contract Term, Suspension, and Termination.

- a. **Term.** The initial term of the Contract will be as indicated in the Contract. The Customer, in its sole discretion, may renew the Contract, in whole or in part, for a period that may not exceed three (3) years or the initial term of the Contract, whichever is longer, by providing written notice to the Contractor. If the Contract was awarded pursuant to a competitive solicitation, as defined in section 287.012, F.S., the pricing for the renewal period will be as set forth in the Contractor's response to the competitive solicitation. No costs may be charged for the renewal, and the renewal is contingent upon satisfactory performance evaluations and subject to availability of funds. Exceptional purchase contracts pursuant to sections 287.057(3)(a) and (c), F.S., may not be renewed.
- b. **Suspension of Work.** The Customer may, in its sole discretion, suspend any or all activities under the Contract, at any time, when in the best interests of the Customer to do so. The Customer shall provide the Contractor written notice outlining the particulars of the suspension. Examples of the reason for suspension include budgetary constraints, declaration of emergency, or other such circumstances. After receiving a suspension notice, the Contractor shall comply with the notice and shall cease performance to the extent required by the notice. Within ninety (90) calendar days of the suspension, or any longer period agreed to by the Contractor, the Customer shall either (i) issue a notice authorizing the resumption of performance, at which time the Contractor shall resume activity; or (ii) terminate the Contract. Suspension of work will not entitle the Contractor to any compensation for services not performed or commodities not delivered during the suspension period nor for any additional compensation.
- c. **Termination.**
 - i. **Termination for Convenience.** The Customer, by written notice to the Contractor thirty (30) calendar days in advance, may terminate the Contract in whole or in part when the Customer determines in its sole discretion that it is in the Customer's interest to do so. The Contractor shall not furnish any Product after it receives the notice of termination, except as necessary to complete the continued portion of the Contract, if any. The Contractor will not be entitled to recover any cancellation charges or lost profits.

- ii. Termination for Cause. The Customer may terminate the Contract if the Contractor fails to (i) deliver the Product within the time specified in the Contract or any extension agreed to by the Customer, (ii) maintain adequate progress, thus endangering the performance of the Contract, (iii) honor any term of the Contract, or (iv) abide by any statutory, regulatory, or licensing requirement. The Customer may, at its sole discretion, (i) immediately terminate the Contract, (ii) notify the Contractor of the deficiency with a Contract requirement and require that the deficiency be corrected within a specified time, otherwise the Contract will terminate at the end of such time, or (iii) take other action deemed appropriate by the Customer. The Contractor shall continue to work on any work not terminated.

Except for defaults of subcontractors at any tier, the Contractor will not be liable for any excess costs if the failure to perform the Contract arises from events completely beyond the control, and without the fault or negligence, of the Contractor. If the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is completely beyond the control of both the Contractor and the subcontractor, and without the fault or negligence of either, the Contractor will not be liable for any excess costs for failure to perform, unless the subcontracted Products were obtainable from other sources in sufficient time for the Contractor to meet the required delivery schedule. If, after termination, it is determined that the Contractor was not in default, or that the default was excusable, the rights and obligations of the parties will be the same as if the termination had been issued for the convenience of the Customer. The rights and remedies of the Customer in this clause are in addition to any other rights and remedies provided by law or under the Contract. The Customer shall notify the Department of Management Services of any vendor that has met the grounds for placement of the vendor on the Department of Management Services' Suspended Vendor List, as required in section 287.1351, F.S.

- iii. Termination for Non-Compliance with E-Verify. Pursuant to section 448.095(5)(c)1., F.S., the Customer shall terminate the Contract if it has a good faith belief that the Contractor has knowingly violated section 448.09(1), F.S. Pursuant to section 448.095(5)(c)2., F.S., if the Customer has a good faith belief that a subcontractor knowingly violated section 448.09(1), F.S., the Customer shall promptly notify the Contractor and order the Contractor to immediately terminate the contract with the subcontractor.
- iv. Termination Related to Statutory Certifications. At the Customer's option, the Contract may be terminated if the Contractor is placed on any of the lists referenced in the attached PUR 7801, Vendor Certification Form, or would otherwise be prohibited from entering into or renewing the Contract based on the statutory provisions referenced therein.
- v. Termination for Refusing Access to Public Records. In accordance with section 287.058(1)(c), F.S., the Customer may unilaterally terminate the Contract if the Contractor refuses to allow public access to all documents, papers, letters, or other

material made or received by the Contractor in conjunction with the Contract, unless the records are exempt from Article I, Section 24(a) of the Florida Constitution and section 119.07(1), F.S.

- vi. Termination for Non-Appropriation. In accordance with section 287.0582, F.S., the Customer may terminate the Contract if, in the Customer's determination, no annual appropriation is provided for the Contract, or the Products provided hereunder, by the Legislature.

5. Performance.

- a. Warranty of Ability to Perform. Upon the effective date of the Contract, and each year on the anniversary date of the Contract, the Contractor shall submit to the Customer a completed PUR 7801, Vendor Certification Form. This requirement will not apply to purchases off a term contract, as defined in section 287.012, F.S., unless specifically requested in the Contract by the Customer.

Additionally, the Contractor shall promptly notify the Customer in writing if its ability to perform is compromised in any manner during the term of the Contract (including potential inability to renew the Contract due to section 287.138 or 908.111, F.S.) or if it or its suppliers, subcontractors, or consultants under the Contract are placed on the Suspended Vendor, Convicted Vendor, Discriminatory Vendor, or Antitrust Violator Vendor Lists. The Contractor shall use commercially reasonable efforts to avoid or minimize any delays in performance and shall inform the Customer of the steps the Contractor is taking or will take to do so, and the projected actual completion (or delivery) time. If the Contractor believes a delay in performance by the Customer has caused or will cause the Contractor to be unable to perform its obligations on time, the Contractor shall promptly so notify the Customer and use commercially reasonable efforts to perform its obligations on time notwithstanding the Customer's delay.

- b. Further Assurances. The parties shall, with reasonable diligence, do all things and provide all reasonable assurances as may be necessary to complete the requirements of the Contract, and each party shall provide such further documents or instruments requested by the other party as may be reasonably necessary or desirable to give effect to the Contract and to carry out its provisions. The Customer is entitled at all times, upon request, to be advised as to the status of work being done by the Contractor and the details thereof.
- c. Assignment. The Contractor shall not sell, assign, or transfer any of its rights, duties, or obligations under the Contract without the prior written consent of the Customer. However, the Contractor may waive its right to receive payment and assign the same upon written notice to the Customer. In the event of any assignment, the Contractor remains secondarily liable for the performance of the Contract, unless the Customer expressly waives such secondary liability in writing. The Customer may assign the Contract with prior written notice to the Contractor of its intent to do so.
- d. Employees, Subcontractors, and Agents.
 - i. Subcontracting. The Contractor is solely responsible for ensuring that any subcontractor(s) utilized perform in accordance with the Contract, and the Contractor

acknowledges that it will not be released of its contractual obligations to the Customer because of any subcontract. The use of the term “subcontractor” may refer to affiliates, resellers, dealers, distributors, partners, teammates, and all other third parties utilized by the Contractor at any tier under the Contract.

The Contractor shall use only those subcontractors approved by the Customer in writing. Subcontractors named in the Contract will be deemed to be approved by the Customer. For subcontractors proposed after the effective date of the Contract, the Contractor shall submit a written request to the Customer’s Contract Manager specifying (i) the name of the proposed subcontractor; (ii) the services to be performed by the subcontractor; (iii) the time of performance; (iv) the Contractor’s proposed method of subcontractor performance monitoring; (v) certification of subcontractor’s compliance with all legal and contractual requirements related to performance (e.g., licensing, background screening, insurance etc.); (vi) a copy of the subcontract, if requested by the Customer; and (vii) indication of whether the subcontractor is an Office of Supplier Diversity registered Florida-based woman-, veteran-, or minority-owned small businesses. The Customer has the final approval authority of all proposed subcontractors. The Contractor’s use of a subcontractor not approved by the Customer will be considered a material breach of the Contract.

- ii. **Qualifications and Access.** All Contractor employees, subcontractors, or agents performing work under the Contract must be properly trained technicians who meet or exceed any specified training qualifications. Upon request, the Contractor shall furnish a copy of technical certification or other proof of qualification. All Contractor employees, subcontractors, or agents performing work under the Contract shall comply with all Contract terms and controlling laws and regulations relevant to the work being performed. The Customer may either conduct, and the Contractor shall cooperate in, or require the Contractor to conduct, a security background check or otherwise assess any employee, subcontractor, or agent furnished by the Contractor. The Customer may refuse access to, or require replacement of, any employee, subcontractor, or agent for cause, including, but not limited to, technical or training qualifications, quality of work, change in security status, or non-compliance with the Customer’s security or other requirements. The Customer may reject and bar from any facility for cause any of the Contractor’s employees, subcontractors, or agents.
- iii. **E-Verify.** The Contractor shall comply with section 448.095, F.S., including the obligation to register with and use the U.S. Department of Homeland Security’s (DHS) E-Verify system to verify the work authorization status of all new employees of the Contractor.
- iv. **Independent Contractor.** The Contractor and its employees, agents, representatives, and subcontractors are not employees or agents of the Customer or State and are not entitled to any benefits of Customer or State employees. The parties shall take all actions necessary to ensure that Contractor’s employees, subcontractors, and other agents are not construed as such. Such actions include ensuring that Contractor’s employees, subcontractors, and other agents receive benefits and necessary insurance (health, workers’ compensations, and unemployment) from an employer other than the Customer or State. Neither the Customer nor the State will be bound by any acts or

conduct of the Contractor or its employees, subcontractors, or agents. The Contractor shall include this provision in all of its subcontracts under the Contract.

- e. Transportation and Delivery. Unless otherwise specified, prices listed in the Contract for commodities include all charges for packing, handling, freight, distribution, and inside delivery. Transportation must be FOB Destination to any point within thirty (30) calendar days after the Customer places an order. The Contractor, within five (5) Business Days after receiving an order, shall notify the Customer of any potential delivery delays. Evidence of inability to timely deliver or intentional delays will be considered a material breach of the Contract.
- f. Packaging. Tangible Products must be securely and properly packed for shipment, storage, and stocking in appropriate, clearly labeled, shipping containers and according to accepted commercial practice, without extra charge for packing materials, cases, or other types of containers. All containers and packaging will become and remain the Customer's property.
- g. Installation. Where installation is required under the Contract, the Contractor shall be responsible for placing and installing the Product in the required locations at no additional charge, unless otherwise specified in the Contract. The Contractor's authorized Product and price list must clearly and separately identify any additional installation charges. All materials used in the installation must be of good quality and free of defects that would diminish the Product's appearance or render it structurally or operationally unsound. Installation includes the furnishing of any equipment, rigging, and materials required to install or replace the Product in the proper location. The Contractor shall protect the site from damage and shall repair damages or injury caused during installation, unless caused by the Customer. If any alteration, dismantling, excavation, etc., is required to achieve installation, the Contractor shall promptly restore the structure or site to its original condition. The Contractor shall perform installation work to cause the least inconvenience and interference with the Customer's use of the site and with proper consideration of others on site. Upon completion of the installation, the location and surrounding area of work must be left clean and in a neat and unobstructed condition, with everything in satisfactory repair and order.
- h. Risk of Loss. Until acceptance, the risk of loss or damage will remain with the Contractor. The Contractor shall file, process, and collect all damage claims. To assist the Contractor with damage claims, the Customer shall (i) record any evidence of visible damage on all copies of the delivering carrier's Bill of Lading; (ii) report damages to the carrier and the Contractor; and (iii) provide the Contractor with a copy of the carrier's Bill of Lading and damage inspection report. If the Customer rejects a Product, the Contractor shall remove it from the premises within ten (10) Business Days after notification of rejection. Upon rejection notification, the risk of loss of a rejected or non-conforming Product will remain with the Contractor. Rejected Product not removed by the Contractor within ten (10) Business Days will be deemed abandoned by the Contractor, and the Customer will have the right to dispose of it as its own property. The Contractor shall reimburse the Customer for costs and expenses incurred in storing or effecting removal or disposition of a rejected Product.
- i. Literature. Upon request, the Contractor shall furnish literature reasonably related to the

Product offered, including user manuals, price schedules, catalogs, and descriptive brochures.

- j. Product Version. The Contract will be deemed to reference a manufacturer's most recently released model or version of the Product at the time of the order unless the Customer specifically requests in writing an earlier model or version and the Contractor is willing to provide such model or version.
- k. Real Property. Pursuant to section 287.05805, F.S., any State funds provided for the purchase of or improvements to real property are contingent upon the Contractor granting to the State a security interest in the property at least to the amount of State funds provided for at least five (5) years from the date of purchase or the completion of the improvements or as further required by law.
- l. Prison Rehabilitative Industries and Diversified Enterprises, Inc. (PRIDE). In accordance with section 946.515(6), F.S., if the Contractor is a private contract vendor and if a product or service required for the performance of the Contract is certified by or is available from PRIDE and has been approved in accordance with section 946.515(2), F.S., the following statement applies:

IT IS EXPRESSLY UNDERSTOOD AND AGREED THAT ANY ARTICLES WHICH ARE THE SUBJECT OF, OR REQUIRED TO CARRY OUT, THIS CONTRACT SHALL BE PURCHASED FROM THE CORPORATION IDENTIFIED UNDER CHAPTER 946, F.S., IN THE SAME MANNER AND UNDER THE SAME PROCEDURES SET FORTH IN SECTION 946.515(2) AND (4), F.S.; AND FOR PURPOSES OF THIS CONTRACT THE PERSON, FIRM OR OTHER BUSINESS ENTITY CARRYING OUT THE PROVISIONS OF THIS CONTRACT SHALL BE DEEMED TO BE SUBSTITUTED FOR THIS AGENCY INsofar AS DEALINGS WITH SUCH CORPORATION ARE CONCERNED.

The above clause is not applicable to subcontractors unless otherwise required by law. Additional information about PRIDE and the products it offers is available at <http://www.pride-enterprises.org>.

- m. Products Available from the Blind or Other Handicapped (RESPECT). In accordance with section 413.036(3), F.S., if the Contractor is a private contract vendor and if a product or service required for the performance of the Contract is on the procurement list established pursuant to section 413.035(2), F.S., the following statement applies:

IT IS EXPRESSLY UNDERSTOOD AND AGREED THAT ANY ARTICLES THAT ARE THE SUBJECT OF, OR REQUIRED TO CARRY OUT, THIS CONTRACT SHALL BE PURCHASED FROM A NONPROFIT AGENCY FOR THE BLIND OR FOR THE SEVERELY HANDICAPPED THAT IS QUALIFIED PURSUANT TO CHAPTER 413, F.S.; IN THE SAME MANNER AND UNDER THE SAME PROCEDURES SET FORTH IN SECTION 413.036(1) AND (2), F.S.; AND FOR PURPOSES OF THIS CONTRACT, THE PERSON, FIRM OR OTHER BUSINESS ENTITY CARRYING OUT THE PROVISIONS OF THIS CONTRACT SHALL BE DEEMED TO BE SUBSTITUTED FOR THE STATE AGENCY INsofar AS

DEALINGS WITH SUCH QUALIFIED NONPROFIT AGENCY ARE CONCERNED.

Additional information about the designated nonprofit agency and the products it offers is available at <http://www.respectofflorida.org>.

- n. Force Majeure, Notice of Delay, and No Damages for Delay. The Contractor will not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of the Contractor or its employees, subcontractors, or agents contributed to the delay and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond the Contractor's control, or for any of the foregoing that affect suppliers if no alternate source of supply is available to the Contractor.

In case of any delay the Contractor believes is excusable, the Contractor shall notify the Customer in writing of the delay or potential delay and describe the cause of the delay either (i) within ten (10) calendar days after the cause that creates or will create the delay first arose, if the Contractor could reasonably foresee that a delay could occur as a result; or (ii) if a delay is not reasonably foreseeable, within five (5) calendar days after the date the Contractor first had reason to believe that a delay could result. THE FOREGOING WILL CONSTITUTE THE CONTRACTOR'S SOLE REMEDY OR EXCUSE WITH RESPECT TO ANY DELAY except if such delay is caused by the fraud, bad faith, or active interference of the Customer. Providing notice in strict accordance with this paragraph is a condition precedent to such remedy, and a rebuttable presumption of prejudice will exist based on Contractor's untimely notice. The Contractor shall not assert any claim for damages related to such delay. The Contractor will not be entitled to an increase in the Contract price or payment of any kind from the Customer for direct, indirect, consequential, impact, or other costs, expenses, or damages, including costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever.

If performance is suspended or delayed, in whole or in part, due to any of the causes described in this subsection 5.n., the Customer may unilaterally (and with no recourse on the part of the Contractor) identify and use an alternate source to complete any work under the Contract as the Customer deems necessary, in its sole discretion. After the causes have ceased to exist, the Contractor shall perform at no increased cost, unless the Customer determines, in its sole discretion, that the delay will significantly impair the value of the Contract to the Customer or State, in which case the Customer may (i) accept allocated performance or deliveries from the Contractor, provided that the Contractor grants preferential treatment to the Customer with respect to Products subjected to allocation; or (ii) terminate the Contract in whole or in part.

- o. Exclusivity. The Contract is not an exclusive license to provide the Products described in the Contract. The Customer may, without limitation and without recourse by the Contractor, contract with other vendors to provide the same or similar Products.

6. Inspection.

- a. Inspection at Contractor's Site. The Customer reserves the right to inspect, at any

reasonable time with prior notice, the equipment, product, plant or other facilities of the Contractor to assess conformity with Contract requirements and to determine whether they are adequate and suitable for proper and effective Contract performance.

- b. Statutory Inspection Rights. If services are to be provided pursuant to the Contract, in accordance with section 216.1366, F.S., the Customer is authorized to inspect the: (i) financial records, papers, and documents of the Contractor that are directly related to the performance of the Contract or the expenditure of State funds; and (ii) programmatic records, papers, and documents of the Contractor which the Customer determines are necessary to monitor the performance of the Contract or to ensure that the terms of the Contract are being met. The Contractor shall provide such records, papers, and documents requested by the Customer within ten (10) Business Days after the request is made.

Further, for any Contract for services with a nonprofit organization as defined in section 215.97(2)(m), F.S., the Contractor must provide documentation that indicates the amount of state funds:

1. Allocated to be used during the full term of the contract for remuneration to any member of the board of directors or an officer of the contractor; and
2. Allocated under each payment by the public agency to be used for remuneration of any member of the board of directors or an officer of the contractor.

The documentation must indicate the amounts and recipients of the remuneration.

- c. Inspection Compliance. The Contractor understands its and its subcontractors' (if any) duty, pursuant to section 20.055(5), F.S., to cooperate with the Inspector General in any investigation, audit, inspection, review, or hearing. Upon request of the Customer's Inspector General, or other authorized State official, the Contractor shall provide any information the State official deems relevant to the Contractor's integrity or responsibility.

Such information may include the Contractor's business or financial records, documents, or files of any type or form that refer to or relate to the Contract. The Contractor agrees to reimburse the State for the reasonable costs of investigation incurred by the Inspector General or other authorized State official for investigations of the Contractor's compliance with the terms of the Contract or any other agreement between the Contractor and the State which results in the suspension or debarment of the Contractor. Such costs will include investigators' salaries, including overtime; travel and lodging expenses; and expert witness and documentary fees. The Contractor will not be responsible for any costs of investigations that do not result in the Contractor's suspension or debarment.

7. Payment.

- a. Annual Appropriations. Pursuant to section 287.0582, F.S., the State of Florida's performance and obligation to pay under this Contract is contingent upon an annual appropriation by the Legislature.
- b. Invoicing and Payment. The Contractor shall include the Contract number and vendor identification information on all invoices. The Customer may require any other information from the Contractor that it deems necessary to verify any charges shown on

the invoice, including detail sufficient for a proper preaudit or post-audit for such bills pursuant to section 287.058(1)(a), F.S.

The Customer shall make payments in accordance with section 215.422, F.S., which governs time limits for payment of invoices. The Contractor shall make payments to any subcontractors and suppliers in accordance with section 287.0585, F.S., if applicable. Invoices that must be returned to a Contractor due to preparation errors will delay payment. The Customer is responsible for all payments under the Contract.

The Department of Financial Services has established a Vendor Ombudsman for vendors having trouble obtaining timely payment from State agencies. The Vendor Ombudsman can be reached at (850) 413-5516.

- c. Overpayments. The Contractor shall return any overpayments, including those due to unearned funds or funds disallowed pursuant to the terms of the Contract that were disbursed to the Contractor by the Customer. The Contractor shall return any overpayment within forty (40) calendar days after the earlier of: (1) discovery by the Contractor (including discovery by its independent auditor, if any), or (2) notification by the Customer of the overpayment.
- d. Transaction Fee. The State, through the Department of Management Services, has instituted MyFloridaMarketPlace, a statewide eProcurement system pursuant to section 287.057(24), F.S. All payments issued by agencies to registered vendors for purchases of commodities or contractual services under Chapter 287, F.S., shall be assessed a transaction fee of one percent (1.0%) of the total amount of the payments received from the State or eligible users, as prescribed by Rule 60A-1.031, F.A.C., or as may otherwise be established by law. Vendors shall pay the Transaction Fee and are subject to automatic deduction of the transaction fee, when automatic deduction becomes available. Vendors shall submit any monthly reports required pursuant to Rule 60A-1.031, F.A.C. All such reports and payments are subject to audit. The Customer will have grounds for declaring the vendor in default if the vendor fails to comply with the payment of the transaction fee or reporting of payments, which may subject the vendor to being suspended from business with the State.
- e. Taxes. The Customer, as a governmental entity of the State, does not pay Federal excise or sales taxes on direct purchases of tangible personal property. The Customer will not pay for any personal property taxes levied on the Contractor or any taxes levied on employees' wages. The Customer will explicitly note any exceptions to this paragraph in the Contract.
- f. Leases and Installment Purchases. In accordance with section 287.063, F.S., if the Contract provides for a lease or installment-purchase agreement in excess of the Category Two amount established by section 287.017, F.S., then the Customer's obligations under the Contract are contingent upon approval of the Contract by the Chief Financial Officer, as defined in section 17.001, F.S.
- g. Travel. Pursuant to section 287.058(1)(b), F.S., if travel is authorized under the Contract, the Contractor shall submit such in accordance with section 112.061, F.S., except that the Customer may establish rates lower than the maximum provided in section 112.061, F.S.

- h. Retention of Payments. The Customer may, in addition to other remedies available to it at law or equity and upon written notice to the Contractor, retain such monies from amounts due to the Contractor as may be necessary to satisfy any claim for payment, including under the indemnification clause, payment for financial consequences, and payment for damages and the like asserted by or against the Customer. The Customer reserves the right to set off any liability or other obligation of the Contractor or its affiliates to the State against any payments due to the Contractor under any contract with the State. The exercise of these rights will not be a breach of the Contract, nor will they in any way entitle the Contractor to a claim against the Customer or State, including for damages.

8. Disputes and Liabilities.

- a. Dispute Resolution. Should any disputes arise concerning the Contract, the parties shall act immediately to resolve any such disputes. Time is of the essence in the resolution.

- i. Dispute Resolution Process.

- (a) Contract Manager Review. The parties shall resolve disputes through the submission of their dispute to the Customer's Contract Manager, who shall reduce a decision to writing and furnish a copy to each party within ten (10) Business Days from the date that the Customer's Contract Manager receives the dispute. The Customer's Contract Manager's decision shall be final unless a party provides the other party with written notice of the party's disagreement with the decision within ten (10) Business Days from the date of the Customer's Contract Manager's decision. If a party disagrees with the Customer's Contract Manager's decision, the party may proceed to subsection (b) below.
- (b) Meeting between the Principals. If either party disagrees with the Customer's Contract Manager's decision, such disagreeing party shall notify the other party of the disagreement within ten (10) Business Days. The parties shall then schedule a meeting between each party's principal (for the Customer, the Customer head or designee; for the Contractor, the Chief Executive Officer or designee) on a mutually agreed upon date, no later than ten (10) Business Days after the provision of the notice. The principals shall attempt to mutually resolve the disagreement at such meeting. If the meeting between the principals fails to resolve the disagreement, the parties shall proceed to subsection (c) below.
- (c) Mediation. Prior to initiating any litigation, the parties, upon mutual agreement, may mediate such dispute. If such mediation is not completed within 100 calendar days from receipt of the Customer's Contract Manager's decision, then either party may commence litigation.

If the dispute is not resolved through the full process in subsections (a) - (c) above (or (a) - (b), if mediation is not agreed to), either party may pursue any available legal or equitable remedies.

- ii. Contractor's Obligation to Perform While Disputes are Pending. The Contractor shall proceed diligently with performance under the Contract pending the final resolution of any dispute or request for relief, claim, appeal, or action arising under the Contract and shall comply with directions to perform from the Customer. Should the Contractor not perform while a dispute is pending, including by not performing disputed work,

such nonperformance by the Contractor may be deemed to be an unexcused breach of the Contract which is separate and apart from any other dispute.

- b. Governing Law and Venue. The Contract will be governed by, and construed in accordance with, the laws of the State. Jurisdiction and venue for suit arising under the terms of the Contract will exclusively be in the appropriate State court located in Leon County, Florida. Except as otherwise provided by law, the parties agree to be responsible for their own attorney's fees and costs incurred in connection with disputes arising under the Contract terms.
- c. Remedies Cumulative. No remedy herein conferred upon or reserved to either party is intended to be exclusive of any other remedy or remedies, and each and every such remedy will be cumulative and in addition to every other remedy given hereunder or now or hereafter existing at law or in equity.
- d. **JURY WAIVER. THE PARTIES, ON BEHALF OF THEMSELVES AND ASSIGNS, WAIVE ALL RIGHTS TO TRIAL BY JURY FOR ANY ACTION, APPEAL, CLAIM, OR PROCEEDING, WHETHER IN LAW OR IN EQUITY, WHICH IN ANY WAY ARISES OUT OF OR RELATES TO THE CONTRACT OR ITS SUBJECT MATTER.**
- e. Insurance Requirements.
 - i. Coverages.
 - (a) In General. During the Contract term, the Contractor shall, at its sole expense, provide commercial insurance of such a type and with such terms and limits as may be reasonably associated with the Contract.
 - (b) Workers' Compensation Insurance. The Contractor shall maintain Workers' Compensation insurance as required by State law; to the extent that any work required by the Contract will be performed outside of the State, the Contractor shall maintain Workers' Compensation Insurance as required by that jurisdiction. If work is being performed by the Contractor under the Contract and any class of employees performing the work is not protected under Workers' Compensation statutes, the Contractor shall provide adequate insurance, satisfactory to the Customer, for the protection of employees not otherwise protected.
 - ii. Terms.
 - (a) In General. Providing and maintaining adequate insurance coverage is a material obligation of the Contractor. Upon request, the Contractor shall provide the Customer with certificate(s) of insurance. The limits of coverage under each policy maintained by the Contractor will not be interpreted as limiting the Contractor's liability and obligations under the Contract. All insurance policies must be through insurers authorized or eligible to write policies in the State or through a self-insurance program established and operating under the laws of the State. The Contractor shall notify the Customer sixty (60) calendar days before any policy is canceled or terminated. All insurance policies must also provide that the insurer notifies the Customer if the policy is cancelled.
 - (b) No Loss Deductible Clause. The Customer will be exempt from, and in no way

liable for, any sums of money that may represent a deductible in any insurance policy. The Contractor shall be solely responsible for payment of such deductible.

- (c) Duration. The insurance policies identified above must be “per occurrence” and maintained throughout the Contract term.
 - (d) Subcontractor's Insurance. The Contractor shall ensure that its subcontractors maintain the levels of insurance as required in this section.
- f. Indemnification. For any and all third-party claims, actions, demands, liabilities, and expenses of any kind which are caused by, related to, growing out of or happening in connection with the Contract (including any determination arising out of or related to the Contract that the Contractor or its employees, agents, subcontractors, assignees, or delegates are not independent contractors in relation to the Customer or State), the Contractor shall be fully liable for the actions of its employees, subcontractors, and agents and shall fully indemnify, defend, and hold harmless the Customer and the State (including each of their current and former officers, agents, and employees) for any and all loss, damage, injury, costs, reasonable expenses, or other casualty to person or property. Without limiting this indemnification requirement, the Customer may provide the Contractor (i) written notice of any action or threatened action, (ii) the opportunity to take over and settle or defend any such action at the Contractor's sole expense, and (iii) assistance in defending the action at the Contractor's sole expense. The above indemnity requirement does not apply to that portion of any loss or damages proximately caused by the negligent act or omission of the Customer or the State. Nothing herein is intended to act as a waiver of the Customer's or State's sovereign immunity or to be deemed consent by the Customer or State or its subdivisions to suit by third parties.

If any Product is the subject of an infringement suit, or in the Contractor's opinion is likely to become the subject of such a suit, the Contractor may at its sole expense procure for the Customer the right to continue using the Product or to modify it to become non-infringing. If the Contractor is not reasonably able to modify or otherwise secure the Customer the right to continue using the Product, the Contractor shall remove the Product and refund the Customer the amounts paid in excess of a reasonable rental for past use. The Customer will not be liable for any royalties.

- g. Limitation of Liability. For all claims against the Contractor under the Contract, and regardless of the basis on which the claim is made, the Contractor's aggregate liability for direct damages under the Contract will be limited to the greater of \$200,000 or the dollar value of the Contract (which is the higher of the total estimated value of the Contract or two times the charges for Products rendered by the Contractor under the Contract if no estimated value is determinable). This limitation will not apply to any claim arising under an indemnity provision of the Contract or any provision of the Contract relating to insurance required to be provided by the Contractor.

Unless otherwise specifically enumerated in the Contract, no party will be liable to the other for special, indirect, punitive, or consequential damages, including lost data or records (unless the Contract requires the Contractor to back-up data or records), even if the party has been advised that such damages are possible. No party will be liable for lost profits, lost revenue, or lost institutional operating savings.

For damages other than those excluded in the preceding paragraph, the Customer's liability is limited to: 1) if the damage is the Customer's failure to pay amounts due to the Contractor for Products received and accepted by the Customer pursuant to the Contract, then only the amount due for such Products and any interest owed under section 215.422, F.S.; or 2) in the event the damage is not related to the Customer's failure to comply with the payment provisions of the Contract, to the maximum of the limited waiver of sovereign immunity provided for in section 768.28, F.S.

9. Compliance with Laws.

- a. In General. The Contractor shall comply with all laws, rules, codes, ordinances, and licensing requirements that are applicable to the conduct of its business and that are applicable to the Contract, including those of federal, state, and local agencies having jurisdiction and authority, and shall ensure that any and all subcontractors utilized do the same. The Contractor represents and warrants that no part of the funding under the Contract will be used in violation of any state or federal law, including, but not limited to, 8 U.S.C. § 1324 or 8 U.S.C. § 1325, or to aid or abet another in violating state or federal law. The Customer may terminate the Contract at any time if the Contractor violates, or aids or abets another in violating, any state or federal law.

If the requirements of the Contract conflict with any governing law, codes, or regulations, the Contractor shall notify the Customer in writing, and the parties shall amend the Contract to comply with the applicable code or regulation. Similarly, if the Contractor believes that any governmental restrictions have been imposed that require alteration of the material, quality, workmanship or performance of the Products, the Contractor shall immediately notify the Customer in writing, indicating the specific restriction. The Customer reserves the right and the complete discretion to accept any such alteration or to terminate the Contract at no further expense to the Customer.

- b. Lobbying and Integrity. The Contractor shall not use funds provided under the Contract in a manner that violates the provisions of sections 11.062 and 216.347, F.S. Pursuant to section 287.058(6), F.S., the Contract does not prohibit the Contractor from lobbying the executive or legislative branch concerning the scope of services, performance, term, or compensation regarding the Contract during the Contract's term. In addition to any applicable statutory restrictions, the Contractor shall not, in connection with this or any other agreement with the State, directly or indirectly (i) offer, confer, or agree to confer any pecuniary benefit on anyone as consideration for any State officer or employee's decision, opinion, recommendation, vote, other exercises of discretion, or violation of a known legal duty; or (ii) offer, give, or agree to give to anyone any gratuity for the benefit of, or at the direction or request of, any State officer or employee. For purposes of clause (ii), "gratuity" means any payment in the form of cash, travel, entertainment, gifts, meals, lodging, loans, subscriptions, advances, deposits of money, services, employment, or contracts of any kind.
- c. Accessibility Requirements. If the Products to be provided include an information technology system that is accessed by the public or State employees, the Contractor shall comply with section 508 of the Rehabilitation Act of 1973, as amended and 29 U.S.C. s. 794(d), including the regulations set forth under 36 C.F.R. part 1194. Section 282.601(1),

F.S., states that “state government shall, when developing, competitively procuring, maintaining, or using electronic information or information technology acquired on or after July 1, 2006, ensure that State employees with disabilities have access to and are provided with information and data comparable to the access and use by State employees who are not individuals with disabilities.”

10. Public Records.

- a. General Record Management and Retention. The Contractor shall retain sufficient records to substantiate claims for payment under the Contract and shall retain all other records that were made in relation to the Contract for the longer of five (5) years after the expiration of the Contract or the period required by the General Records Schedules maintained by the Florida Department of State available at: <https://dos.fl.gov/library-archives/records-management/general-records-schedules/>.
- b. Identification and Protection of Confidential Information. Article 1, section 24, of the Florida Constitution, guarantees every person access to public records, and section 119.011, F.S., provides a broad definition of “public record.” As such, records submitted to the Customer (or any other State agency) are public records and are subject to disclosure unless exempt from disclosure by law. If the Contractor considers any portion of a record it provides to the Customer (or any other State agency) to be trade secret or otherwise confidential or exempt from disclosure under Florida or federal law (“Confidential Information”), the Contractor shall mark as “confidential” each page of a document or specific portion of a document containing Confidential Information and simultaneously provide the Customer (or other State agency) with a separate, redacted copy of the record. The Contractor shall state the basis of the exemption that the Contractor contends is applicable to each portion of the record redacted, including the specific statutory citation for such exemption. The Contractor shall only redact portions of records that it claims contains Confidential Information. If the Contractor fails to mark a record it claims contains Confidential Information as “confidential,” or fails to submit a redacted copy in accordance with this section of a record it claims contains Confidential Information, the Customer (or other State agency) shall have no liability for release of such record. The foregoing will apply to every instance in which the Contractor fails to both mark a record “confidential” and redact it in accordance with this section, regardless of whether the Contractor may have properly marked and redacted the same or similar Confidential Information in another instance or record submitted to the Customer (or any other State agency).

In the event of a public records request, to which records the Contractor marked as “confidential” are responsive to the request, the Customer shall provide the Contractor-redacted copy to the requestor. If the Contractor has marked a record as “confidential” but failed to provide a Contractor-redacted copy to the Customer, the Customer may notify the Contractor of the request and the Contractor may have up to ten (10) Business Days from the date of the notice to provide a Contractor-redacted copy, or else the Customer may release the unredacted record to the requestor without liability. If the Customer provides a Contractor-redacted copy of the documents and the requestor asserts a right to the Contractor-redacted Confidential Information, the Customer shall promptly notify the Contractor such an assertion has been made. The notice will provide that if the Contractor seeks to protect the Contractor-redacted Confidential Information from release it must, within thirty (30) days after the date of the notice and at its own expense, file a cause of

action seeking a declaratory judgment that the information in question is exempt from section 119.07(1), F.S., or other applicable law and an order prohibiting the Customer from publicly disclosing the information. The Contractor shall provide written notice to the Customer of any cause of action filed. If the Contractor fails to file a cause of action within thirty (30) days the Customer may release the unredacted copy of the record to the requestor without liability.

If the Customer is requested or compelled in any legal proceeding to disclose documents that are marked as “confidential” (whether by oral questions, interrogatories, requests for information or documents, subpoena, or similar process), unless otherwise prohibited by law, the Customer shall give the Contractor prompt written notice of the demand or request prior to disclosing any Confidential Information to allow the Contractor to seek a protective order or other appropriate relief at the Contractor’s sole discretion and expense. If the Contractor fails to take appropriate and timely action to protect the Confidential Information contained within documents it has marked as “confidential” or fails to provide a redacted copy that may be disclosed, the Customer may provide the unredacted records in response to the demand without liability.

The Contractor shall protect, defend, and indemnify the Customer for all claims, costs, fines, settlement fees, and attorneys’ fees, at both the trial and appellate levels, arising from or relating to the Contractor’s determination that its records contain Confidential Information. In the event of a third-party claim brought against the Customer for failure to release the Contractor’s redacted Confidential Information, the Contractor shall assume, at its sole expense, the defense or settlement of such claim, including attorney’s fees and costs at both the trial and appellate levels. If the Contractor fails to continuously undertake the defense or settlement of such claim or if the Contractor and Customer mutually agree that the Customer is best suited to undertake the defense or settlement, the Customer will have the right, but not the obligation, to undertake the defense or settlement of such claim, at its discretion. The Contractor shall be bound by any defense or settlement the Customer may make as to such claim, and the Contractor agrees to reimburse the Customer for the expense, including reasonable attorney’s fees and costs at both the trial and appellate levels associated with any defense or settlement that the Customer may undertake to defend Contractor’s Confidential Information. The Customer will also be entitled to join the Contractor in any third-party claim for the purpose of enforcing any right of indemnity under this section.

If at any point the Customer is reasonably advised by its counsel that disclosure of the Confidential Information is required by law, including but not limited to Florida’s public records laws, the Customer may disclose such Confidential Information without liability hereunder.

- c. Public Records Requirements Pursuant to Section 119.0701, F.S. Solely for the purpose of this section, the Customer’s Contract Manager is the agency custodian of public records. If, under the Contract, the Contractor is providing services and is acting on behalf of the public agency, as provided in section 119.0701, F.S., the Contractor shall:
 - i. Keep and maintain public records required by the Customer to perform the service.

- ii. Upon request from the Customer's custodian of public records, provide the Customer with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, F.S., or as otherwise provided by law.
- iii. Ensure that public records that are exempt or confidential and exempt from public records disclosure are not disclosed except as authorized by law for the duration of the contract term and following the completion of the Contract if the Contractor does not transfer the records to the Customer.
- iv. Upon completion of the Contract, transfer, at no cost, to the Customer all public records in possession of the Contractor or keep and maintain public records required by the Customer to perform the service. If the Contractor transfers all public records to the Customer upon completion of the contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the Contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the Customer, upon request from the Customer's custodian of public records, in a format that is compatible with the information technology systems of the Customer.
- v. **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, F.S., TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT THE TELEPHONE NUMBER, EMAIL ADDRESS, AND MAILING ADDRESS PROVIDED FOR THE CONTRACT MANAGER.**
- d. Advertising. Unless legally obligated, the Contractor shall not publicly disseminate any information concerning the Contract without prior written approval from the Customer, including mentioning the Contract in a press release or other promotional material, identifying the Customer or the State as a reference, or otherwise linking the Contractor's name and either a description of the Contract or the name of the Customer or the State in any material published, either in print or electronically, to any entity that is not a party to Contract, except potential or actual entities eligible to make purchases pursuant to section 12, below, or authorized distributors, dealers, resellers, or service representatives.

11. Security and Confidentiality. The Contractor shall not divulge to third parties any confidential information obtained by the Contractor or its employees, subcontractors, or agents in the course of performing Contract work, including security procedures, business operations information, or commercial proprietary information in the possession of the Customer or State. The Contractor will not be required to keep confidential information or material that is publicly available through no fault of the Contractor, material that the Contractor developed independently without relying on the Customer's or State's confidential information, or material that is otherwise obtainable under State law as a public record. To ensure confidentiality, the Contractor shall take appropriate steps as to its employees, subcontractors, and agents.

12. Cooperative Purchasing. Pursuant to their own governing laws, and subject to the Contractor's agreement, other entities may be permitted to make purchases at the terms and conditions contained herein. Such purchases are independent of this Contract, and the Customer will not be a party to any transaction between the Contractor and any other purchaser.

State agencies wishing to make purchases off this Contract must follow the provisions of sections 287.042 and 287.057(3)(b), F.S., which may require prior approval of the Department of Management Services.

Hi Derek,

We do not have anything that the vendor's sign except their bid sheets when they submit a bid. No signatures are obtained for the MFMP contracts that are established.

FIRE RESCUE

MEMORANDUM

TO: Frank Kitzerow, Town Manager

FROM: Darrel Donatto, Fire Chief

DATE: October 6th, 2026

RE: Traffic Preemption Device Installation – Quote Availability Memo

The purpose of this memorandum is to document the efforts made by the Fire Prevention Division to obtain competitive quotes for the installation of traffic preemption devices at select intersections within the Town of Jupiter.

As part of the approved Glance Traffic Preemption System Implementation Project (CIP #FD-2026-03), the Town is seeking qualified electrical contractors to perform intersection installations. These installations require specialized experience with traffic signal wiring, preemption controllers, and coordination with the Florida Department of Transportation (FDOT) and Palm Beach County's Traffic Engineering department.

The Fire Prevention Division contacted multiple licensed electrical and traffic signal contractors via phone to request written quotes for the scope of work. Despite outreach efforts, Gerelco Electric Company was the only vendor that responded with a formal proposal. The following companies were contacted and either declined or did not respond: Johnson Controls, Econolite, & Siemens AG.

Due to the lack of responses from additional vendors, Gerelco Electric Company remains the only available qualified contractor willing to perform the installation work. Their proposal meets the required technical specifications and is consistent with similar pricing structures used by FDOT and Palm Beach County. Accordingly, the Fire Prevention Division respectfully requests that the Town Manager authorize proceeding with Gerelco Electric Company for the installation of the traffic preemption device, based on the documented lack of competition and the specialized nature of the work.

DATE	October 21, 2025
TO	Honorable Mayor and Members of Town Council
THRU	Frank Kitzerow, Town Manager
FROM	Roger Held, Senior Director of Community Development
SUBJECT	Authorizing the Purchase of two Public Works vehicles, one Building vehicle, and two Parks vehicles in the amount of \$269,341 using a piggyback of the City of Tallahassee Contract .

EXECUTIVE SUMMARY

Staff is seeking approval from the Town Council to purchase five (5) new, fully-equipped fleet vehicles, consistent with the approved budget. The total capital expenditure for these vehicles is \$269,341. This purchase includes: one 2026 Ford Transit T-250 Cargo Van (\$60,125) for the Public Works Division; one 2026 Ford F-150 Super Crew Cab 4WD Pickup (\$51,938) for the Public Works Division; one 2026 Chevrolet Tahoe 2WD LS (\$60,404) for the Building Department; and two vehicles for the Parks Department, specifically one 2026 Ford F-250 Regular Cab Pickup (\$44,936) and one 2026 Ford F-150 Super Crew Cab 4WD Pickup (\$51,938). This purchase is essential to replace aging fleet units and maintain operational readiness across these critical Town departments.

ANALYSIS

In accordance with the Town's Procurement Policy, each component of the vehicle's purchase will be as follows:

1. One Public Works Division vehicle will be used by the building maintenance carpentry staff and will be outfitted with safety transit federal lighting, interior shelving for materials and supplies. The second Public Works Division vehicle will be used by the Fleet Mechanics, and it is outfitted with safety transit federal lighting, tow package, and four-wheel drive capabilities to properly assist and repair town vehicles on various road conditions.
2. The Building Department vehicle will be used by the Senior Director of Community Development for project coordination and permit compliance.
3. One Parks and Recreation Department vehicle will be used by the new Superintendent. It is outfitted with safety transit federal lighting, tow package, and four-wheel drive capabilities due to the oversight of construction activities of Town parks and recreation centers. The second Parks and Recreation Department vehicle is outfitted with safety transit federal lighting and will be used for hauling of large dump trailer and other larger equipment.

The City of Tallahassee Agreement No. 5179 for New Municipal Vehicles, with an effective term, included executed renewals, of January 13, 2022 through January 12, 2027, was competitively bid and contains provisions for other public entities to make vehicle purchases under their Agreement. Price quotes obtained for the five (5) new Town vehicles for the Public

Works Division, Building Department, and Parks and Recreation Department comply with the City of Tallahassee Agreement No.5179. Funding is available in the respective FY2026 operating budgets.

**THE E-VERIFY
MEMORANDUM OF UNDERSTANDING
FOR EMPLOYERS**

**ARTICLE I
PURPOSE AND AUTHORITY**

The parties to this agreement are the Department of Homeland Security (DHS) and the Alan Jay Automotive Management (Employer). The purpose of this agreement is to set forth terms and conditions which the Employer will follow while participating in E-Verify.

E-Verify is a program that electronically confirms an employee's eligibility to work in the United States after completion of Form I-9, Employment Eligibility Verification (Form I-9). This Memorandum of Understanding (MOU) explains certain features of the E-Verify program and describes specific responsibilities of the Employer, the Social Security Administration (SSA), and DHS.

Authority for the E-Verify program is found in Title IV, Subtitle A, of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (IIRIRA), Pub. L. 104-208, 110 Stat. 3009, as amended (8 U.S.C. § 1324a note). The Federal Acquisition Regulation (FAR) Subpart 22.18, "Employment Eligibility Verification" and Executive Order 12989, as amended, provide authority for Federal contractors and subcontractors (Federal contractor) to use E-Verify to verify the employment eligibility of certain employees working on Federal contracts.

**ARTICLE II
RESPONSIBILITIES**

A. RESPONSIBILITIES OF THE EMPLOYER

1. The Employer agrees to display the following notices supplied by DHS in a prominent place that is clearly visible to prospective employees and all employees who are to be verified through the system:
 - a. Notice of E-Verify Participation
 - b. Notice of Right to Work
2. The Employer agrees to provide to the SSA and DHS the names, titles, addresses, and telephone numbers of the Employer representatives to be contacted about E-Verify. The Employer also agrees to keep such information current by providing updated information to SSA and DHS whenever the representatives' contact information changes.
3. The Employer agrees to grant E-Verify access only to current employees who need E-Verify access. Employers must promptly terminate an employee's E-Verify access if the employer is separated from the company or no longer needs access to E-Verify.

Company ID Number: 1201859

4. The Employer agrees to become familiar with and comply with the most recent version of the E-Verify User Manual.
 5. The Employer agrees that any Employer Representative who will create E-Verify cases will complete the E-Verify Tutorial before that individual creates any cases.
 - a. The Employer agrees that all Employer representatives will take the refresher tutorials when prompted by E-Verify in order to continue using E-Verify. Failure to complete a refresher tutorial will prevent the Employer Representative from continued use of E-Verify.
 6. The Employer agrees to comply with current Form I-9 procedures, with two exceptions:
 - a. If an employee presents a "List B" identity document, the Employer agrees to only accept "List B" documents that contain a photo. (List B documents identified in 8 C.F.R. § 274a.2(b)(1)(B)) can be presented during the Form I-9 process to establish identity.) If an employee objects to the photo requirement for religious reasons, the Employer should contact E-Verify at 888-464-4218.
 - b. If an employee presents a DHS Form I-551 (Permanent Resident Card), Form I-766 (Employment Authorization Document), or U.S. Passport or Passport Card to complete Form I-9, the Employer agrees to make a photocopy of the document and to retain the photocopy with the employee's Form I-9. The Employer will use the photocopy to verify the photo and to assist DHS with its review of photo mismatches that employees contest. DHS may in the future designate other documents that activate the photo screening tool.
- Note: Subject only to the exceptions noted previously in this paragraph, employees still retain the right to present any List A, or List B and List C, document(s) to complete the Form I-9.
7. The Employer agrees to record the case verification number on the employee's Form I-9 or to print the screen containing the case verification number and attach it to the employee's Form I-9.
 8. The Employer agrees that, although it participates in E-Verify, the Employer has a responsibility to complete, retain, and make available for inspection Forms I-9 that relate to its employees, or from other requirements of applicable regulations or laws, including the obligation to comply with the antidiscrimination requirements of section 274B of the INA with respect to Form I-9 procedures.
 - a. The following modified requirements are the only exceptions to an Employer's obligation to not employ unauthorized workers and comply with the anti-discrimination provision of the INA: (1) List B identity documents must have photos, as described in paragraph 6 above; (2) When an Employer confirms the identity and employment eligibility of newly hired employee using E-Verify procedures, the Employer establishes a rebuttable presumption that it has not violated section 274A(a)(1)(A) of the Immigration and Nationality Act (INA) with respect to the hiring of that employee; (3) If the Employer receives a final nonconfirmation for an employee, but continues to employ that person, the Employer must notify DHS and the Employer is subject to a civil money penalty between \$550 and \$1,100 for each failure to notify DHS of continued employment following a final nonconfirmation; (4) If the Employer continues to employ an employee after receiving a final nonconfirmation, then the Employer is subject to a rebuttable presumption that it has knowingly

Company ID Number: 1201859

employed an unauthorized alien in violation of section 274A(a)(1)(A); and (5) no E-Verify participant is civilly or criminally liable under any law for any action taken in good faith based on information provided through the E-Verify.

b. DHS reserves the right to conduct Form I-9 compliance inspections, as well as any other enforcement or compliance activity authorized by law, including site visits, to ensure proper use of E-Verify.

9. The Employer is strictly prohibited from creating an E-Verify case before the employee has been hired, meaning that a firm offer of employment was extended and accepted and Form I-9 was completed. The Employer agrees to create an E-Verify case for new employees within three Employer business days after each employee has been hired (after both Sections 1 and 2 of Form I-9 have been completed), and to complete as many steps of the E-Verify process as are necessary according to the E-Verify User Manual. If E-Verify is temporarily unavailable, the three-day time period will be extended until it is again operational in order to accommodate the Employer's attempting, in good faith, to make inquiries during the period of unavailability.

10. The Employer agrees not to use E-Verify for pre-employment screening of job applicants, in support of any unlawful employment practice, or for any other use that this MOU or the E-Verify User Manual does not authorize.

11. The Employer must use E-Verify for all new employees. The Employer will not verify selectively and will not verify employees hired before the effective date of this MOU. Employers who are Federal contractors may qualify for exceptions to this requirement as described in Article II.B of this MOU.

12. The Employer agrees to follow appropriate procedures (see Article III below) regarding tentative nonconfirmations. The Employer must promptly notify employees in private of the finding and provide them with the notice and letter containing information specific to the employee's E-Verify case. The Employer agrees to provide both the English and the translated notice and letter for employees with limited English proficiency to employees. The Employer agrees to provide written referral instructions to employees and instruct affected employees to bring the English copy of the letter to the SSA. The Employer must allow employees to contest the finding, and not take adverse action against employees if they choose to contest the finding, while their case is still pending. Further, when employees contest a tentative nonconfirmation based upon a photo mismatch, the Employer must take additional steps (see Article III.B. below) to contact DHS with information necessary to resolve the challenge.

13. The Employer agrees not to take any adverse action against an employee based upon the employee's perceived employment eligibility status while SSA or DHS is processing the verification request unless the Employer obtains knowledge (as defined in 8 C.F.R. § 274a.1(l)) that the employee is not work authorized. The Employer understands that an initial inability of the SSA or DHS automated verification system to verify work authorization, a tentative nonconfirmation, a case in continuance (indicating the need for additional time for the government to resolve a case), or the finding of a photo mismatch, does not establish, and should not be interpreted as, evidence that the employee is not work authorized. In any of such cases, the employee must be provided a full and fair opportunity to contest the finding, and if he or she does so, the employee may not be terminated or suffer any adverse employment consequences based upon the employee's perceived employment eligibility status

Company ID Number: 1201859

(including denying, reducing, or extending work hours, delaying or preventing training, requiring an employee to work in poorer conditions, withholding pay, refusing to assign the employee to a Federal contract or other assignment, or otherwise assuming that he or she is unauthorized to work) until and unless secondary verification by SSA or DHS has been completed and a final nonconfirmation has been issued. If the employee does not choose to contest a tentative nonconfirmation or a photo mismatch or if a secondary verification is completed and a final nonconfirmation is issued, then the Employer can find the employee is not work authorized and terminate the employee's employment. Employers or employees with questions about a final nonconfirmation may call E-Verify at 1-888-464-4218 (customer service) or 1-888-897-7781 (worker hotline).

14. The Employer agrees to comply with Title VII of the Civil Rights Act of 1964 and section 274B of the INA as applicable by not discriminating unlawfully against any individual in hiring, firing, employment eligibility verification, or recruitment or referral practices because of his or her national origin or citizenship status, or by committing discriminatory documentary practices. The Employer understands that such illegal practices can include selective verification or use of E-Verify except as provided in part D below, or discharging or refusing to hire employees because they appear or sound "foreign" or have received tentative nonconfirmations. The Employer further understands that any violation of the immigration-related unfair employment practices provisions in section 274B of the INA could subject the Employer to civil penalties, back pay awards, and other sanctions, and violations of Title VII could subject the Employer to back pay awards, compensatory and punitive damages. Violations of either section 274B of the INA or Title VII may also lead to the termination of its participation in E-Verify. If the Employer has any questions relating to the anti-discrimination provision, it should contact OSC at 1-800-255-8155 or 1-800-237-2515 (TDD).

15. The Employer agrees that it will use the information it receives from E-Verify only to confirm the employment eligibility of employees as authorized by this MOU. The Employer agrees that it will safeguard this information, and means of access to it (such as PINS and passwords), to ensure that it is not used for any other purpose and as necessary to protect its confidentiality, including ensuring that it is not disseminated to any person other than employees of the Employer who are authorized to perform the Employer's responsibilities under this MOU, except for such dissemination as may be authorized in advance by SSA or DHS for legitimate purposes.

16. The Employer agrees to notify DHS immediately in the event of a breach of personal information. Breaches are defined as loss of control or unauthorized access to E-Verify personal data. All suspected or confirmed breaches should be reported by calling 1-888-464-4218 or via email at E-Verify@dhs.gov. Please use "Privacy Incident – Password" in the subject line of your email when sending a breach report to E-Verify.

17. The Employer acknowledges that the information it receives from SSA is governed by the Privacy Act (5 U.S.C. § 552a(i)(1) and (3)) and the Social Security Act (42 U.S.C. 1306(a)). Any person who obtains this information under false pretenses or uses it for any purpose other than as provided for in this MOU may be subject to criminal penalties.

18. The Employer agrees to cooperate with DHS and SSA in their compliance monitoring and evaluation of E-Verify, which includes permitting DHS, SSA, their contractors and other agents, upon

Company ID Number: 1201859

reasonable notice, to review Forms I-9 and other employment records and to interview it and its employees regarding the Employer's use of E-Verify, and to respond in a prompt and accurate manner to DHS requests for information relating to their participation in E-Verify.

19. The Employer shall not make any false or unauthorized claims or references about its participation in E-Verify on its website, in advertising materials, or other media. The Employer shall not describe its services as federally-approved, federally-certified, or federally-recognized, or use language with a similar intent on its website or other materials provided to the public. Entering into this MOU does not mean that E-Verify endorses or authorizes your E-Verify services and any claim to that effect is false.

20. The Employer shall not state in its website or other public documents that any language used therein has been provided or approved by DHS, USCIS or the Verification Division, without first obtaining the prior written consent of DHS.

21. The Employer agrees that E-Verify trademarks and logos may be used only under license by DHS/USCIS (see M-795 (Web)) and, other than pursuant to the specific terms of such license, may not be used in any manner that might imply that the Employer's services, products, websites, or publications are sponsored by, endorsed by, licensed by, or affiliated with DHS, USCIS, or E-Verify.

22. The Employer understands that if it uses E-Verify procedures for any purpose other than as authorized by this MOU, the Employer may be subject to appropriate legal action and termination of its participation in E-Verify according to this MOU.

B. RESPONSIBILITIES OF FEDERAL CONTRACTORS

1. If the Employer is a Federal contractor with the FAR E-Verify clause subject to the employment verification terms in Subpart 22.18 of the FAR, it will become familiar with and comply with the most current version of the E-Verify User Manual for Federal Contractors as well as the E-Verify Supplemental Guide for Federal Contractors.

2. In addition to the responsibilities of every employer outlined in this MOU, the Employer understands that if it is a Federal contractor subject to the employment verification terms in Subpart 22.18 of the FAR it must verify the employment eligibility of any "employee assigned to the contract" (as defined in FAR 22.1801). Once an employee has been verified through E-Verify by the Employer, the Employer may not create a second case for the employee through E-Verify.

a. An Employer that is not enrolled in E-Verify as a Federal contractor at the time of a contract award must enroll as a Federal contractor in the E-Verify program within 30 calendar days of contract award and, within 90 days of enrollment, begin to verify employment eligibility of new hires using E-Verify. The Employer must verify those employees who are working in the United States, whether or not they are assigned to the contract. Once the Employer begins verifying new hires, such verification of new hires must be initiated within three business days after the hire date. Once enrolled in E-Verify as a Federal contractor, the Employer must begin verification of employees assigned to the contract within 90 calendar days after the date of enrollment or within 30 days of an employee's assignment to the contract, whichever date is later.

Company ID Number: 1201859

- b. Employers enrolled in E-Verify as a Federal contractor for 90 days or more at the time of a contract award must use E-Verify to begin verification of employment eligibility for new hires of the Employer who are working in the United States, whether or not assigned to the contract, within three business days after the date of hire. If the Employer is enrolled in E-Verify as a Federal contractor for 90 calendar days or less at the time of contract award, the Employer must, within 90 days of enrollment, begin to use E-Verify to initiate verification of new hires of the contractor who are working in the United States, whether or not assigned to the contract. Such verification of new hires must be initiated within three business days after the date of hire. An Employer enrolled as a Federal contractor in E-Verify must begin verification of each employee assigned to the contract within 90 calendar days after date of contract award or within 30 days after assignment to the contract, whichever is later.
- c. Federal contractors that are institutions of higher education (as defined at 20 U.S.C. 1001(a)), state or local governments, governments of Federally recognized Indian tribes, or sureties performing under a takeover agreement entered into with a Federal agency under a performance bond may choose to only verify new and existing employees assigned to the Federal contract. Such Federal contractors may, however, elect to verify all new hires, and/or all existing employees hired after November 6, 1986. Employers in this category must begin verification of employees assigned to the contract within 90 calendar days after the date of enrollment or within 30 days of an employee's assignment to the contract, whichever date is later.
- d. Upon enrollment, Employers who are Federal contractors may elect to verify employment eligibility of all existing employees working in the United States who were hired after November 6, 1986, instead of verifying only those employees assigned to a covered Federal contract. After enrollment, Employers must elect to verify existing staff following DHS procedures and begin E-Verify verification of all existing employees within 180 days after the election.
- e. The Employer may use a previously completed Form I-9 as the basis for creating an E-Verify case for an employee assigned to a contract as long as:
- i. That Form I-9 is complete (including the SSN) and complies with Article II.A.6,
 - ii. The employee's work authorization has not expired, and
 - iii. The Employer has reviewed the Form I-9 information either in person or in communications with the employee to ensure that the employee's Section 1, Form I-9 attestation has not changed (including, but not limited to, a lawful permanent resident alien having become a naturalized U.S. citizen).
- f. The Employer shall complete a new Form I-9 consistent with Article II.A.6 or update the previous Form I-9 to provide the necessary information if:
- i. The Employer cannot determine that Form I-9 complies with Article II.A.6,
 - ii. The employee's basis for work authorization as attested in Section 1 has expired or changed, or
 - iii. The Form I-9 contains no SSN or is otherwise incomplete.

Note: If Section 1 of Form I-9 is otherwise valid and up-to-date and the form otherwise complies with

Company ID Number: 1201859

Article II.C.5, but reflects documentation (such as a U.S. passport or Form I-551) that expired after completing Form I-9, the Employer shall not require the production of additional documentation, or use the photo screening tool described in Article II.A.5, subject to any additional or superseding instructions that may be provided on this subject in the E-Verify User Manual.

g. The Employer agrees not to require a second verification using E-Verify of any assigned employee who has previously been verified as a newly hired employee under this MOU or to authorize verification of any existing employee by any Employer that is not a Federal contractor based on this Article.

3. The Employer understands that if it is a Federal contractor, its compliance with this MOU is a performance requirement under the terms of the Federal contract or subcontract, and the Employer consents to the release of information relating to compliance with its verification responsibilities under this MOU to contracting officers or other officials authorized to review the Employer's compliance with Federal contracting requirements.

C. RESPONSIBILITIES OF SSA

1. SSA agrees to allow DHS to compare data provided by the Employer against SSA's database. SSA sends DHS confirmation that the data sent either matches or does not match the information in SSA's database.

2. SSA agrees to safeguard the information the Employer provides through E-Verify procedures. SSA also agrees to limit access to such information, as is appropriate by law, to individuals responsible for the verification of Social Security numbers or responsible for evaluation of E-Verify or such other persons or entities who may be authorized by SSA as governed by the Privacy Act (5 U.S.C. § 552a), the Social Security Act (42 U.S.C. 1306(a)), and SSA regulations (20 CFR Part 401).

3. SSA agrees to provide case results from its database within three Federal Government work days of the initial inquiry. E-Verify provides the information to the Employer.

4. SSA agrees to update SSA records as necessary if the employee who contests the SSA tentative nonconfirmation visits an SSA field office and provides the required evidence. If the employee visits an SSA field office within the eight Federal Government work days from the date of referral to SSA, SSA agrees to update SSA records, if appropriate, within the eight-day period unless SSA determines that more than eight days may be necessary. In such cases, SSA will provide additional instructions to the employee. If the employee does not visit SSA in the time allowed, E-Verify may provide a final nonconfirmation to the employer.

Note: If an Employer experiences technical problems, or has a policy question, the employer should contact E-Verify at 1-888-464-4218.

D. RESPONSIBILITIES OF DHS

1. DHS agrees to provide the Employer with selected data from DHS databases to enable the Employer to conduct, to the extent authorized by this MOU:

a. Automated verification checks on alien employees by electronic means, and

Company ID Number: 1201859

- b. Photo verification checks (when available) on employees.
2. DHS agrees to assist the Employer with operational problems associated with the Employer's participation in E-Verify. DHS agrees to provide the Employer names, titles, addresses, and telephone numbers of DHS representatives to be contacted during the E-Verify process.
3. DHS agrees to provide to the Employer with access to E-Verify training materials as well as an E-Verify User Manual that contain instructions on E-Verify policies, procedures, and requirements for both SSA and DHS, including restrictions on the use of E-Verify.
4. DHS agrees to train Employers on all important changes made to E-Verify through the use of mandatory refresher tutorials and updates to the E-Verify User Manual. Even without changes to E-Verify, DHS reserves the right to require employers to take mandatory refresher tutorials.
5. DHS agrees to provide to the Employer a notice, which indicates the Employer's participation in E-Verify. DHS also agrees to provide to the Employer anti-discrimination notices issued by the Office of Special Counsel for Immigration-Related Unfair Employment Practices (OSC), Civil Rights Division, U.S. Department of Justice.
6. DHS agrees to issue each of the Employer's E-Verify users a unique user identification number and password that permits them to log in to E-Verify.
7. DHS agrees to safeguard the information the Employer provides, and to limit access to such information to individuals responsible for the verification process, for evaluation of E-Verify, or to such other persons or entities as may be authorized by applicable law. Information will be used only to verify the accuracy of Social Security numbers and employment eligibility, to enforce the INA and Federal criminal laws, and to administer Federal contracting requirements.
8. DHS agrees to provide a means of automated verification that provides (in conjunction with SSA verification procedures) confirmation or tentative nonconfirmation of employees' employment eligibility within three Federal Government work days of the initial inquiry.
9. DHS agrees to provide a means of secondary verification (including updating DHS records) for employees who contest DHS tentative nonconfirmations and photo mismatch tentative nonconfirmations. This provides final confirmation or nonconfirmation of the employees' employment eligibility within 10 Federal Government work days of the date of referral to DHS, unless DHS determines that more than 10 days may be necessary. In such cases, DHS will provide additional verification instructions.

ARTICLE III

REFERRAL OF INDIVIDUALS TO SSA AND DHS

A. REFERRAL TO SSA

1. If the Employer receives a tentative nonconfirmation issued by SSA, the Employer must print the notice as directed by E-Verify. The Employer must promptly notify employees in private of the finding and provide them with the notice and letter containing information specific to the employee's E-Verify

Company ID Number: 1201859

case. The Employer also agrees to provide both the English and the translated notice and letter for employees with limited English proficiency to employees. The Employer agrees to provide written referral instructions to employees and instruct affected employees to bring the English copy of the letter to the SSA. The Employer must allow employees to contest the finding, and not take adverse action against employees if they choose to contest the finding, while their case is still pending.

2. The Employer agrees to obtain the employee's response about whether he or she will contest the tentative nonconfirmation as soon as possible after the Employer receives the tentative nonconfirmation. Only the employee may determine whether he or she will contest the tentative nonconfirmation.
3. After a tentative nonconfirmation, the Employer will refer employees to SSA field offices only as directed by E-Verify. The Employer must record the case verification number, review the employee information submitted to E-Verify to identify any errors, and find out whether the employee contests the tentative nonconfirmation. The Employer will transmit the Social Security number, or any other corrected employee information that SSA requests, to SSA for verification again if this review indicates a need to do so.
4. The Employer will instruct the employee to visit an SSA office within eight Federal Government work days. SSA will electronically transmit the result of the referral to the Employer within 10 Federal Government work days of the referral unless it determines that more than 10 days is necessary.
5. While waiting for case results, the Employer agrees to check the E-Verify system regularly for case updates.
6. The Employer agrees not to ask the employee to obtain a printout from the Social Security Administration number database (the Numident) or other written verification of the SSN from the SSA.

B. REFERRAL TO DHS

1. If the Employer receives a tentative nonconfirmation issued by DHS, the Employer must promptly notify employees in private of the finding and provide them with the notice and letter containing information specific to the employee's E-Verify case. The Employer also agrees to provide both the English and the translated notice and letter for employees with limited English proficiency to employees. The Employer must allow employees to contest the finding, and not take adverse action against employees if they choose to contest the finding, while their case is still pending.
2. The Employer agrees to obtain the employee's response about whether he or she will contest the tentative nonconfirmation as soon as possible after the Employer receives the tentative nonconfirmation. Only the employee may determine whether he or she will contest the tentative nonconfirmation.
3. The Employer agrees to refer individuals to DHS only when the employee chooses to contest a tentative nonconfirmation.
4. If the employee contests a tentative nonconfirmation issued by DHS, the Employer will instruct the

Company ID Number: 1201859

employee to contact DHS through its toll-free hotline (as found on the referral letter) within eight Federal Government work days.

5. If the Employer finds a photo mismatch, the Employer must provide the photo mismatch tentative nonconfirmation notice and follow the instructions outlined in paragraph 1 of this section for tentative nonconfirmations, generally.

6. The Employer agrees that if an employee contests a tentative nonconfirmation based upon a photo mismatch, the Employer will send a copy of the employee's Form I-551, Form I-766, U.S. Passport, or passport card to DHS for review by:

- a. Scanning and uploading the document, or
- b. Sending a photocopy of the document by express mail (furnished and paid for by the employer).

7. The Employer understands that if it cannot determine whether there is a photo match/mismatch, the Employer must forward the employee's documentation to DHS as described in the preceding paragraph. The Employer agrees to resolve the case as specified by the DHS representative who will determine the photo match or mismatch.

8. DHS will electronically transmit the result of the referral to the Employer within 10 Federal Government work days of the referral unless it determines that more than 10 days is necessary.

9. While waiting for case results, the Employer agrees to check the E-Verify system regularly for case updates.

ARTICLE IV SERVICE PROVISIONS

A. NO SERVICE FEES

1. SSA and DHS will not charge the Employer for verification services performed under this MOU. The Employer is responsible for providing equipment needed to make inquiries. To access E-Verify, an Employer will need a personal computer with Internet access.

ARTICLE V MODIFICATION AND TERMINATION

A. MODIFICATION

1. This MOU is effective upon the signature of all parties and shall continue in effect for as long as the SSA and DHS operates the E-Verify program unless modified in writing by the mutual consent of all parties.

2. Any and all E-Verify system enhancements by DHS or SSA, including but not limited to E-Verify checking against additional data sources and instituting new verification policies or procedures, will be covered under this MOU and will not cause the need for a supplemental MOU that outlines these changes.

Company ID Number: 1201859

B. TERMINATION

1. The Employer may terminate this MOU and its participation in E-Verify at any time upon 30 days prior written notice to the other parties.
2. Notwithstanding Article V, part A of this MOU, DHS may terminate this MOU, and thereby the Employer's participation in E-Verify, with or without notice at any time if deemed necessary because of the requirements of law or policy, or upon a determination by SSA or DHS that there has been a breach of system integrity or security by the Employer, or a failure on the part of the Employer to comply with established E-Verify procedures and/or legal requirements. The Employer understands that if it is a Federal contractor, termination of this MOU by any party for any reason may negatively affect the performance of its contractual responsibilities. Similarly, the Employer understands that if it is in a state where E-Verify is mandatory, termination of this by any party MOU may negatively affect the Employer's business.
3. An Employer that is a Federal contractor may terminate this MOU when the Federal contract that requires its participation in E-Verify is terminated or completed. In such cases, the Federal contractor must provide written notice to DHS. If an Employer that is a Federal contractor fails to provide such notice, then that Employer will remain an E-Verify participant, will remain bound by the terms of this MOU that apply to non-Federal contractor participants, and will be required to use the E-Verify procedures to verify the employment eligibility of all newly hired employees.
4. The Employer agrees that E-Verify is not liable for any losses, financial or otherwise, if the Employer is terminated from E-Verify.

ARTICLE VI PARTIES

- A. Some or all SSA and DHS responsibilities under this MOU may be performed by contractor(s), and SSA and DHS may adjust verification responsibilities between each other as necessary. By separate agreement with DHS, SSA has agreed to perform its responsibilities as described in this MOU.
- B. Nothing in this MOU is intended, or should be construed, to create any right or benefit, substantive or procedural, enforceable at law by any third party against the United States, its agencies, officers, or employees, or against the Employer, its agents, officers, or employees.
- C. The Employer may not assign, directly or indirectly, whether by operation of law, change of control or merger, all or any part of its rights or obligations under this MOU without the prior written consent of DHS, which consent shall not be unreasonably withheld or delayed. Any attempt to sublicense, assign, or transfer any of the rights, duties, or obligations herein is void.
- D. Each party shall be solely responsible for defending any claim or action against it arising out of or related to E-Verify or this MOU, whether civil or criminal, and for any liability wherefrom, including (but not limited to) any dispute between the Employer and any other person or entity regarding the applicability of Section 403(d) of IIRIRA to any action taken or allegedly taken by the Employer.
- E. The Employer understands that its participation in E-Verify is not confidential information and may be disclosed as authorized or required by law and DHS or SSA policy, including but not limited to,

Company ID Number: 1201859

Congressional oversight, E-Verify publicity and media inquiries, determinations of compliance with Federal contractual requirements, and responses to inquiries under the Freedom of Information Act (FOIA).

F. The individuals whose signatures appear below represent that they are authorized to enter into this MOU on behalf of the Employer and DHS respectively. The Employer understands that any inaccurate statement, representation, data or other information provided to DHS may subject the Employer, its subcontractors, its employees, or its representatives to: (1) prosecution for false statements pursuant to 18 U.S.C. 1001 and/or; (2) immediate termination of its MOU and/or; (3) possible debarment or suspension.

G. The foregoing constitutes the full agreement on this subject between DHS and the Employer.

To be accepted as an E-Verify participant, you should only sign the Employer's Section of the signature page. If you have any questions, contact E-Verify at 1-888-464-4218.

4. PRICES AND PAYMENT.

A. Prices. The City agrees to pay the Vendor for Vehicles and Services ordered under this Agreement as set forth in the Vendor's price lists submitted as part of its Solicitation Response. The Vendor's pricing shall be updated accordingly based on pricing for the current year. Any and all future pricing **MUST** be approved by the Fleet Management Director.

B. Payment. All fees are due and payable in U.S. dollars. Payment for orders for Vehicles and Services will be made in accordance with the Local Government Prompt Payment Act (Section 218.70, et. seq., Florida Statutes), unless the Parties make other arrangements as documented either by addendum to this Agreement or through a Purchase Order. Under the terms of the Prompt Payment Act, the payment due date for a local government entity for the purchase of goods or services is 45 days after the date on which a proper invoice is received by the City or, if no proper invoice is received, the due date is calculated based on other trigger dates identified in Section 218.73, Florida Statutes. No C.O.D shipments will be accepted. If the City fails to make payment within the statutory time frame, the unpaid

amount shall bear interest from thirty (30) days after the due date at the rate of 1% per month on the unpaid balance.

(1) Disputes. In the event a dispute occurs between the Vendor and the City, the Parties shall attempt to settle the dispute informally and in good faith prior to instituting formal legal action. If the dispute is resolved in favor of the Vendor, interest shall begin to accrue as of the original date the payment became due.

The Vendor understands that the City is entitled to an exemption from any applicable taxes and shall provide the Vendor with a valid exemption certificate upon request.

5. DELIVERY, INSPECTION, AND ACCEPTANCE.

A. Delivery does not constitute acceptance for the purpose of payment or warranty start time. The City shall inspect all Vehicles or Services to determine whether such Vehicles or Services meet all specifications and requirements set forth in the Agreement Documents. The City agrees to notify the Vendor within three (3) days of delivery or completion of Services if the Vehicles or Services do not meet all specifications and requirements for acceptance.

7. TERM.

A. Initial Term. The initial term of this Agreement shall commence on the Effective Date and shall continue for a period of three (3) years (the "Initial Term").

B. Extension Term. Upon written, mutual agreement by the Vendor and the City, this Agreement may be extended at the conclusion of the Initial Term for an additional two (2) years (the "Extension"). The Vendor and the City must agree to extend the Agreement no later than thirty (30) days prior to the expiration of the Initial Term of the Agreement.

8. TERMINATION.

A. Termination for Cause. If the Vendor fails to fulfill any of its obligations under this Agreement and does not cure such default within thirty (30) days after receipt of written notice from the City, such failure shall be considered a default and shall entitle, but not obligate, the City to suspend performance under this Agreement or to terminate this Agreement, in whole or in part, wholly at the City's discretion.

B. Termination for Convenience. Additionally, the City shall have the right to terminate this Agreement for convenience, in whole or in part, upon 90-day notice, without the Vendor being in default thereunder. In the event of termination for convenience, the City shall pay the Vendor (i) the full amount due for services satisfactorily rendered, (ii) approved costs and expenses incurred which remain unpaid at the time of such termination, and (iii) such other costs of termination, if any, as may be mutually agreed by the parties.

C. Termination Process. Termination shall be effected by (i) delivery of written notice to the Vendor from the City specifying whether termination is for default or convenience, (ii) providing detail as to the extent to which services under this Agreement are to be terminated, and (iii) specifying the date

upon which such termination becomes effective. After receipt of the written termination notice, and except as otherwise directed in writing by the City, the Vendor shall promptly stop work under this Agreement on the date and to the extent specified in the termination notice, terminate all subcontracts that relate to the performance of the services terminated by the termination notice, and complete performance of any services which have not been terminated. In the event the Agreement is canceled for default under the Agreement, the City may withhold funds owed to the Vendor in an amount sufficient to compensate for actual damages suffered from the default resulting in termination of the Agreement.

9. FINANCIAL CONSEQUENCES OF NON-PERFORMANCE.

A. The City may apply financial consequences if the Vendor fails to perform in accordance with the terms of the Agreement. If the Vendor fails to remedy performance deficiencies within thirty (30) days of being provided notice of such deficiency by the City, the Vendor may be assessed a non-performance retainage equivalent to 10% or \$1,000.00, whichever is less, of the total invoice amount for the task or project. The retainage will be applied to the invoice for the then-current billing period. The retainage will be withheld until the Vendor resolves the deficiency. If the deficiency is subsequently resolved, the Vendor may invoice the City for the retained amount during the next billing period. If the Vendor is unable to resolve the deficiency, the retained funds will be forfeited.

B. The Vendor shall not be charged retained funds when the non-performance is a result of delay in delivery or performance arising out causes beyond the control and without fault or negligence of the Vendor due to manufacturer delays. To substantiate a delay in manufacturer product delivery, the Vendor is required to submit written proof of delay to the City in the form of a letter or email sent from the manufacturer to the Vendor. The City agrees that no retained funds will be withheld from the Vendor after written proof of the manufacturer's product delivery delay is provided to the City and, if necessary, regularly updated if the delay continues past any date which may be included in the written communication from the manufacturer.

10. LIQUIDATED DAMAGES.

A. If the Vendor fails to provide the Vehicles or Services within the time specified in this Agreement, any applicable Purchase Order, or any negotiated extension, the Vendor shall pay the minimum sum of \$100.00 for each calendar day of delay, not to exceed \$1,500.00 per month, to the City

as fixed and liquidated damages. In the event the City is penalized monetarily by federal, state, or local entities as a result of the Vendor delay, error, and/or poor performance issues, the Vendor may be required to reimburse the City the full amount of the assessed penalty.

B. Alternatively, if delivery or performance is delayed, the City may terminate this Agreement in whole or in part, under the Termination provision in this Agreement. In the event of termination for delivery or performance delay, the Vendor may be liable for (i) reimbursement to the City for costs spent to procure the Vehicles or Services from another vendor or (ii) for payment of liquidated damages as provided in above until such time as the City may reasonably obtain delivery or performance of similar Vehicles or Services.

C. The Vendor shall not be charged with liquidated damages, including if the City is penalized by federal, state or local entities, when the delay in delivery or performance arises out of causes beyond the control and without the fault or negligence of the Vendor caused by delay in manufacturer product delivery.

11. INDEMNIFICATION. The Vendor shall hold harmless and indemnify the City and its officials, officers, and employees from all claims, damages, losses, expenses, suits or actions against all third-party claims, losses, expenses, suits, or actions against the City, including, without limitation, costs of defending the action and attorney's fees, to the extent the claims arise out of or result from the performance and furnishing of the work, services, materials, goods, or equipment under the Agreement (including, but not limited to, claims regarding defects in materials, goods, equipment, and patent infringement) and such claim is caused in whole, or in part, by any breach of contract, act, or omission of the Vendor, its subcontractors, anyone directly or indirectly employed by any of them, or anyone whose acts any of them may be liable. In any and all claims against the City, or any of its agents or employees by any employee of the Vendor, its subcontractors, anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, the indemnification obligation under this clause shall not be limited in any way by limitation on the amount or type of damages, compensation or benefits payable by or for the Vendor or its subcontractors under any Workers' Compensation Act, Disability Act, or other Employee Benefit Act.

12. AVAILABILITY OF FUNDS. City funds may not be available for performance under this Agreement beyond September 30 of each year of this Agreement. The City's obligation for performance of this Agreement beyond that date is contingent upon the availability of appropriated funds from which payment for contract purposes can be made. No legal liability on the part of the City for any payment may arise for performance under this Agreement beyond the referenced date until funds are made available.

13. NOTIFICATION OF INSOLVENCY. In the event the Vendor enters into a proceeding relating to bankruptcy or an assignment for the benefit of creditors, whether voluntary or involuntary, the Vendor agrees to furnish, by certified mail or other method authorized by the Agreement, written notification of the proceeding to the City. This notification shall be furnished within five (5) days of the initiation of the proceedings relating to bankruptcy filing or transfer of legal and equitable title of assets to a third party under an assignment for the benefit of creditors. This notification shall include the date on which the bankruptcy petition was filed or the transfer consummated, the identity of the court in which the bankruptcy petition was filed or the name of the entity holding Vendor's assets, and a listing of City contract or purchase order numbers for all City contracts against which final payment has not been made. This obligation remains in effect until final payment of net receipts under this Agreement has been made to the Vendor.

14. CHOICE OF LAW AND VENUE. All questions concerning the construction, validity, and interpretation of this Agreement shall be governed by the law of the State of Florida. Any dispute arising out of, concerning, or relating to this Agreement between the Parties shall be resolved exclusively in a federal or state court of competent jurisdiction located in Tallahassee, Leon County, Florida. To the extent necessary, the Parties hereby submit to, and agree not to contest, the jurisdiction of such courts. The Parties also agree to waive any right to trial by jury in any dispute or litigation arising from, concerning, or relating to this Agreement.

15. REMEDIES. No remedy herein conferred upon any Party is intended to be exclusive of any other remedy. Each and every remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or at equity by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder shall preclude any other or further

exercise thereof.

16. NO WAIVER; SEVERABILITY; SECTION HEADINGS. No failure of either Party to exercise or enforce any of its rights under this Agreement shall act as a waiver of such rights. If any provision of this Agreement is determined in any proceeding binding upon the Parties to be invalid or unenforceable, that provision will be deemed severed from the remainder of the Agreement and the remaining provisions shall continue in full force and effect; provided however, that if a court by limiting such provision determines that the provision would become valid and enforceable, then such provision will be deemed to be written, construed, and enforced as so limited so long as the result is consistent with the Parties' expressed intentions herein. The section headings in this Agreement are solely for the convenience of the Parties and have no legal or contractual effect. This Agreement is entered into by sophisticated entities with access to counsel and shall not be construed against either Party as the "drafting" party.

17. RELATIONSHIP BETWEEN THE PARTIES. The Vendor and the City acknowledge and agree that this Agreement is not and shall not be construed as an agreement of joint venture, partnership, agency, franchise, or employment between the Parties or their respective employees. For all purposes under this Agreement, each Party shall be and act as an independent contractor to the other and shall not be authorized to, and shall not, bind or attempt to bind the other to any contract or agreement.

18. NOTICES. All notices required to be given under this Agreement shall be given in writing and sent to the following:

Such notices shall be deemed given on the date of receipt of delivery of (or refusal to accept) said notice. Notwithstanding the foregoing, any day-to-day operational correspondence may be made by phone, email, or other mutually agreeable mechanism.

19. ASSIGNMENT. Neither Party may sell, assign, or transfer this Agreement without the prior written consent of the other Party; provided, however, that either Party may (with notice but without the prior consent of the other Party) assign this Agreement by operation of law, pursuant to a merger or acquisition of all or substantially all of its stock or assets, or to its affiliate. This Agreement shall be binding upon and inure to the benefit of the Parties and their respective successors and permitted assigns. The Vendor shall notify the City, in writing, thirty (30) calendar days prior to any assignment or transfer as allowed by this paragraph.

20. PUBLIC RECORDS. The Parties acknowledge that the City is a governmental entity and is subject to Florida's Public Records Law, Chapter 119, Florida Statutes. The Parties further acknowledge that some, or all, of the information, materials, documents provided to the City by the Vendor may be public records and, as such, may be subject to disclosure to, and copying by, the public unless otherwise exempted by statute. This provision shall constitute the City's sole obligation relating to maintaining confidentiality of any information or proprietary material of any kind submitted by the Vendor.

The Vendor also recognizes that by doing business with the City, its records relating to the Agreement may also be subject to the Public Records Act. **If the Vendor has questions regarding the application of Chapter 119, Florida Statutes, to the Vendor's duty to provide public records relating to this Agreement, the Vendor may contact the City's Custodian of Public Records at:**

21. SUBCONTRACTORS. Subcontractors are not allowed under this Agreement.

22. FORCE MAJEURE. Neither Party shall be liable for non-performance or delay, other than the payment of fees due hereunder, due in whole or in part to any Force Majeure Event. Force Majeure Event shall be defined as occurrence of an event which is outside the reasonable control of a party and

which prevents that party from performing its obligations under a contract. In the event a Party is hindered or prevented from performing hereunder due to a Force Majeure Event, such Party shall notify the other Party of the Force Majeure Event and the extent of its suspension as soon as reasonably practicable. Failure to give notice as timely as practicable under the circumstances shall result in the forfeiture of a Party's right to suspend its obligations hereunder. If a Force Majeure Event prevents, hinders, or delays performance of a Party's obligations hereunder for more than thirty (30) days, the Party not prevented from performing may, at its sole option, terminate this Agreement upon notice to the other Party.

23. INSURANCE COVERAGE. Prior to commencing work, the Vendor shall procure and maintain, at the Vendor's own cost and expense, throughout the Term of the Agreement, the following types and limits of insurance coverage in relation to the performance of work or provision of services hereunder by the Vendor, its agents, representatives, employees or subcontractors.

A. Commercial General/Umbrella Liability Insurance. \$1,000,000 limit per occurrence for property damage and bodily injury. The Vendor should indicate whether the coverage is provided on a claims-made or, preferably, on an occurrence basis. The insurance shall include coverage for the following:

D. Commercial General Liability and Automobile Liability Coverage.

- * The City, members of its City Commission, boards, commissions and committees, officers, agents, employees and volunteers (together, "City Insureds") are to be covered as additional insured as respects: liability arising out of activities performed by or on behalf of the Vendor; products and completed operations of the Vendor; premises owned, leased, or used by the Vendor; or premises on which the Vendor is performing services on behalf of the City. The coverage shall not contain special limitations on the scope of protection afforded the City Insureds.
- * The Vendor's insurance coverage shall be primary insurance for the City Insureds. Any other insurance or self-insurance maintained by or on behalf of the City Insureds shall be excess of the Vendor's insurance and shall not contribute to it.
- * Any failure to comply with reporting provisions of the policies shall not affect coverage provided to the City Insureds.

- * If the Vendor, for any reason, fails to maintain insurance coverage which is required pursuant to this Agreement, it shall be deemed a material breach of the Agreement. The City, at its sole option, may terminate this Agreement and obtain damages from the Vendor resulting from said breach.
- * Alternatively, the City may purchase such required insurance coverage (but has no special obligation to do so) and, without further notice to the Vendor, the City may deduct any premium costs advanced by the City for such insurance from sums due to the Vendor.

I. Deductibles and Self-Insured Retentions. Any deductibles or self-insured retentions must be declared to and approved by the City. At the option of the City, the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects the City Insureds; or the Vendor shall procure a bond guaranteeing payment of losses, related investigation, claim administration, and defense expenses.

J. Acceptability of Insurers. Insurance is to be placed with Florida insurers rated B+X or better by A.M. Best's rating service.

K. Verification of Coverage. The Vendor shall furnish the City with certificates of insurance and with original endorsements providing evidence of required coverage. The certificates and endorsements for each policy must be signed by a person authorized by that insurer to bind coverage on the Vendor's behalf. The certificates and endorsements must be received and approved by the City before work commences. Certificates of Insurance must be annotated with the applicable contract number.

The Parties agree that electronic signatures of the Parties, whether digital or encrypted, have the same force and effect as manual signatures. Delivery of a copy of this Agreement or any other document contemplated hereby bearing an original or electronic signature by facsimile transmission, by electronic mail in portable document format (.pdf) form, or by any other electronic means intended to preserve the original textual, graphic and pictorial appearance of a document, have the same effect as physical delivery of the paper document bearing an original or electronic signature.

26. ORDER OF PRECEDENCE. In the event of any inconsistency between any provisions of this Agreement and the Agreement Documents, and unless specifically stated otherwise, the inconsistency shall be resolved by giving precedence in the following order:

- A. This Agreement, and any written attachments and future written Amendments or Purchase Orders.
- B. Purchase Orders arising from this Agreement, including any associated quote and build sheets.
- C. City Solicitation RFP No.069-21-KM, including all addenda.
- D. Vendor's Response to the City's Solicitation.

27. E-VERIFY. The Contractor, and its subcontractors, must register with and utilize, the U.S. Department of Homeland Security's E-Verify system to verify the work authorization status of all newly hired employees, pursuant to Section 448.095, Florida Statutes. Registration must take place prior to execution of this contract. If the Contractor enters into any agreement with a subcontractor for performance of services under this contract, the subcontractor must provide an affidavit to the Contractor which states that the subcontractor does not employ, contract with, or subcontract with any unauthorized aliens. The Contractor is required to maintain a copy of such affidavit throughout the term of this contract.

The Contractor agrees to adhere to the requirements of Section 448.095, Florida Statutes, and understands that failure to comply with the statute will result in termination of this contract. If such termination occurs, the Contractor will not be awarded another City contract for at least one (1) year from the termination date and will be liable for any additional costs incurred by the City as a result of the termination.

28. ENTIRE AGREEMENT. This Agreement, including its attachments and associated documents, constitutes the entire Agreement between the Parties pertaining to the subject matter hereof, and supersedes in their entirety all written or oral agreements previously existing between the Parties with respect to such subject matter. No supplement, modification, addendum, or amendment of this Agreement shall be binding unless executed in writing by both Parties. In the event of any conflict between any terms of this Agreement and any terms of any attachment, the terms of this Agreement shall supersede, govern, and control to the extent of the inconsistency.

IN WITNESS WHEREOF, the Parties hereto have executed this Agreement by their duly authorized representatives.

TOWN OF JUPITER
Utilities Field Office Renovations (WS2531)

DATE	October 21, 2025
TO	Honorable Mayor and Members of Town Council
THRU	Frank Kitzerow, Town Manager
FROM	Amanda Barnes, Utilities Director
SUBJECT	Resolution No. 93-25: Approving a Contract with FSV Construction for Utilities Field Office Renovations (WS2531) for an amount of \$350,531.

EXECUTIVE SUMMARY

Resolution 93-25 provides for the award of a construction contract with FSV Construction Company (FSV) of Miami, Florida for Utilities Field Office Renovations (WS2531), for an amount of \$350,531.

Under this proposed contract, FSV will furnish all labor, equipment and materials necessary to perform proposed renovations to the existing first floor bathrooms and second floor open office spaces at the Utilities Field Offices (UFO) building located at 3133 Washington Street. The first-floor bathrooms are nearly 25 years old, showing their age, and do not appropriately support the needs of the thirty staff from Utilities Field Operations, Jupiter Fire Rescue, and Public Works who use them on a daily basis. The proposed renovations include enlarging the size of the men's restroom by providing more efficient use of the space within the existing area of the men's and women's restrooms, and replacing fixtures and finishes. The second floor of the UFO currently includes a large open area of desk and counter space that is currently used by one administrative assistant. This open space can easily be renovated to construct new office space for Utilities staff displaced by the fire rescue offices on the first floor. The second floor renovations will make efficient use of the existing space and provide new office space for three Utilities inspectors with a plan review area and two administrative support staff, including necessary storage space. Construction drawings for the proposed demolition and renovations are provided as Attachment 3. Furniture for the offices is not included in the proposed contract, and instead will be procured directly from the furniture supplier through a state contract.

In accordance with the Town's Procurement Policy, a contract was publicly advertised for bids. Six (6) sealed bids were received and publicly opened on August 14, 2025. Bids ranged from \$350,531.00 to \$572,926.35, with the lowest bid submitted by FSV Construction Company. FSV's total bid price was 5% lower than the second-lowest bid, indicating that competitive bids were received. A detailed bid tabulation is included in Attachment 2. FSV's total bid price is slightly higher than the design architect's estimate for the project of \$350,000. Town staff reviewed FSV's bid and found it to be responsive to the bid requirements. Reference checks conducted for FSV's previous experience were favorable. FSV Construction Company is qualified to perform the work of the proposed contract and has successfully performed similar work for other entities.

A portion of the funds for this project were originally appropriated in the FY2025 Water and Stormwater operating budgets and have been transferred to the Water and Stormwater Asset Maintenance CIP budgets to accommodate the timing of the proposed contract. As such,

funding for the proposed contract is available through multiple sources, including the adopted FY2026 Water and Stormwater Utilities Asset Maintenance renewal and replacement budgets and the Public Works Storage Building Phase II budget, within the Town's Community Investment Program (CIP). A detailed project budget is provided as Attachment 6. Provided this contract is approved, construction of the proposed renovations is expected to be completed by June 2026.

The Town Attorney has reviewed the attached contract and finds it to be in acceptable form.

ANALYSIS

A review of FSV Construction Company's bid submitted on August 14, 2025, for Utilities Field Office Renovations (WS2531), for an amount of \$350,531, concluded that their bid is responsive to the bid requirements and that they are qualified to perform the work. Sufficient funding for this project exists in the appropriated CIP budgets as presented in the Project Budget provided in Attachment 6. The proposed contract is suitable for award at the Town Council's discretion.

Project Name:	Department:	
Public Works Maintenance Facilities Renovations Ph II	Engineering	
Link to Strategic Plan/Strategic Result:	Project #:	Projected In-Service Date:
Organizational Excellence	E2200	2026

Project Description and Justification:

Project Description: This project expands the compound fence, adds a graded base rock area for outdoor storage, and constructs a 4,500 SF metal structure with one air-conditioned bay, a 3,000 SF three-bay metal storage structure (Building C), and an open-air storage area for equipment and materials. It also includes the demolition of an existing pole barn, construction of bulk material bins, a larger diesel storage tank for Town vehicles, and stormwater infrastructure. The existing Public Works Storage Building (Building A) will be modified to add a backup generator, additional insulation, and air-conditioned office space. A master plan for the maintenance complex will also be developed to review all functions and space needs for future renovations.

Justification:

The Town's growth has increased the demand for office space and equipment/material storage within the Maintenance Complex. This project provides essential office space, dry storage for valuable materials and equipment, and a segregated storage area for materials like base rock, crusher stone, sand, and waste (e.g., damaged concrete sidewalks).

TOWN OF JUPITER

Authorizing the Mayor to execute the Blood and Blood Components Supply Agreement and Business Associate Agreement with OneBlood, Inc.

DATE	October 21, 2025
TO	Honorable Mayor and Members of Town Council
THRU	Frank Kitzerow, Town Manager
FROM	Darrel Donatto, Fire Chief
SUBJECT	Resolution 107-25 Approves the Execution of a Blood and Blood Components Supply and Business Associate Agreement with OneBlood, Inc., as a Single/Sole Source, for a Five-Year Term and Annual Spending Limits of \$50,000.

EXECUTIVE SUMMARY

OneBlood, Inc. is a distributor of blood and blood component supplies in Palm Beach County. Staff is seeking approval of a Blood and Blood Component Supply Agreement for a five-year term and annual spending limits of \$50,000, subject to appropriation. The purchase of blood and blood component supplies is crucial for the operational readiness and efficiency of the new Jupiter Fire Rescue department. OneBlood, Inc. sources blood and blood components through fixed collection sites and Big Red buses in the local area. All hospitals and fire rescue agencies in Palm Beach County rely on OneBlood, Inc. as their sole source for blood and blood components. To establish a blood product exchange program that reduces waste, the hospital and agency need to use the same blood product supplier. A single/sole source purchase notice was advertised on DemandStar for 15 business days from 09/19/25 to 10/10/25 in accordance with Section 287.057(3)(c) of the Florida State Statutes. In compliance with the statute, no notifications were received from other vendors who could provide the supplies. Additionally, a Business Associate Agreement was added between OneBlood, Inc. and the Town of Jupiter, as both parties will be using or disclosing Protected Health Information.

The Town Attorney has reviewed the attached Blood and Blood Component Supply Agreement and Business Associate Agreement, and finds it to be in acceptable form.

ANALYSIS

The Town of Jupiter Fire Rescue Department requires a reliable source of blood and blood components (including red blood cells, plasma, whole blood, etc.) to meet emergency medical needs. OneBlood, Inc., a Florida not-for-profit organization, is a regional blood center accredited by the Association for the Advancement of Blood and Biotherapies and licensed by the FDA, specializing in the procurement, storage, testing, and distribution of blood products. In accordance with the Town's Procurement Policy, OneBlood, Inc.'s proposed Blood and Blood Component Supply Agreement has been selected as the single/sole source provider of blood and blood components for a five-year term, effective September 28, 2026, with defined terms, pricing, and quality control measures.

Approval of the agreements with OneBlood Inc. ensures a secure, high-quality, and cost-controlled supply of blood components necessary for the Jupiter Fire Rescue Department to provide lifesaving

emergency care. Approval of Resolution No. 107-25 will authorize the Mayor to execute the Blood and Blood Component Supply Agreement and Business Associate Agreement.

2. Basic Supply and Services.

(a) Requirements Contract. Components will be supplied to Fire Rescue on an as-needed basis as such Components are requested by Fire Rescue and are available for delivery. During the Term Fire Rescue may obtain Components from other suppliers to the extent not available from OneBlood in a timely manner (i.e., by the time when such Fire Rescue reasonably requires such Component).

(b) Provision of Components. Due to the unpredictable nature of the demands for Components, OneBlood is not able to guarantee Fire Rescue the availability of all or any portion of the Components to be supplied hereunder. OneBlood does agree, however, that (1) it will use its reasonable best efforts to supply all Components ordered by Fire Rescue in an expeditious fashion, and (2) at no time during the Term will OneBlood so conduct its operations that any other customer regularly receives preferential treatment in the allocation of Components. OneBlood has no reason to believe that, in the absence of special circumstances, it will be unable to provide any and all Components required by Fire Rescue in connection with its normal operations.

(c) Storage. Until Components are used by Fire Rescue, Fire Rescue will provide appropriate temperature-controlled storage of such Components and otherwise comply with the Standards in all respects. Fire Rescue shall provide to OneBlood's Medical Director or his designee, upon request, reasonable access to the storage facilities and records maintained by Fire Rescue so that OneBlood can satisfy itself that all requirements for inspection and accreditation are being satisfied.

(d) Fire Rescue Responsibilities. Fire Rescue shall be responsible for controlling orders for Components by its physicians and other personnel, and OneBlood shall not be responsible for verifying orders from Fire Rescue physicians or controlling the use of Components by physicians.

(e) Returns. The Fire Rescue may return Components obtained from OneBlood and receive credit for the fees charged by OneBlood, as permitted under OneBlood's return policies in effect from time to time; provided, that all of the requirements listed below are met:

(1) Damaged Components: If Components arrive to the Fire Rescue in a damaged condition, or in a conditioned rendering the Components unsuitable for transfusion, the Fire Rescue may return such Components to OneBlood (or discard the Components upon OneBlood's request) for full or partial credit; provided however, that in order to receive such credit, the Fire Rescue must inform OneBlood of such condition within ten (10) days of delivery of the Components to the Fire Rescue. OneBlood shall maintain responsibility for any delivery costs associated with such returns.

(2) Recalled or Withdrawn Components: In the event the FDA or other regulatory agency requires OneBlood to withdraw or recall Components, the Fire

Rescue shall return the Components to OneBlood in accordance with Subsection 2(f)(3) for full or partial credit, as applicable. OneBlood shall maintain responsibility for any delivery costs associated with such returns.

(3) Components Returned or Redistributed at OneBlood's Request: In the event OneBlood requests the Fire Rescues return or redistribute Components due to emergency conditions or requirements, the Fire Rescue shall receive a full credit for such returned or redistributed product. OneBlood shall maintain responsibility for any delivery costs associated with such returns or redistributions.

(4) Broken/Defective Bags: OneBlood will provide credit for broken/defective bags during thawing of blood products.

(5) Return Authorization: Before returning Components to OneBlood for any reason, the Fire Rescue must complete a return authorization form through BloodHub. All shipments of returned Components must be accompanied by a completed return authorization form. Units ordered STAT are not returnable for credit under OneBlood's return policy.

Any Component that is returnable for credit and re-issue is a resource of the regional community serviced by OneBlood, and any such units will be immediately released to OneBlood upon request to enable OneBlood to respond to an imminent transfusion need for that Component by another customer of OneBlood. Returns and fee credits are subject to the conditions and limitations contained herein or in OneBlood's return policies in effect from time to time.

OneBlood may change its return policies for the Fire Rescue from time to time by providing the Fire Rescue thirty (30) days' prior written notice of any such change.

3. OneBlood's Charges. As consideration for its providing Components under this Agreement, OneBlood shall be entitled to compensation as follows:

(a) Charges.

(1) Upon the issuance to Fire Rescue of a Component or Service, Fire Rescue shall become obligated to pay OneBlood's charges with respect to such Component as specified in Subsection 3(b) or 3(c) hereof, as applicable. OneBlood may allow Fire Rescue to return unused Components, but only in strict compliance with OneBlood's return policies in effect from time to time. OneBlood shall have the power to change its return policies from time to time by providing Fire Rescue the same notice that Fire Rescue would be entitled to receive concerning an increase in OneBlood's charges under Subsection 3(b) of this Agreement.

(2) OneBlood's charges shall be due from Fire Rescue irrespective of whether Fire Rescue can charge or collect from its patient or others for the Components or Services delivered. To the extent necessary for compliance with billing requirements of Medicare, Medicaid or other third party payors, OneBlood delegates and assigns to Fire

Rescue OneBlood's rights to bill Fire Rescue's patients for Components and Services provided to them by OneBlood under this Agreement.

(b) Charges for Components. The initial level of OneBlood's charges for Components and certain services shall be as set forth in Exhibit A attached hereto. However, OneBlood's charges for any or all of such Components and services may be adjusted by OneBlood upon thirty (30) days' prior written notice to Fire Rescue of the new charges applicable to such Components and services. Any increase in a charge for Components or Services shall be increased each year by the lesser of (i) three percent (3%); or (ii) aggregate change in the U.S. Department of Labor Consumer Price Index for all Urban Consumers (CPI-U) reported each November (as measured by the increase in the CPI-U from November of the previous year to October of the present year). In no event shall this change cause a reduction in charges below that of the preceding year. The foregoing limitations shall not apply in the event that any Applicable Law or government policy or program change is passed or adopted affecting Components, Services, rates or obligations hereunder, resulting in an increase in charges pursuant to Subsection 16(d).

(c) Charges for Additional Services. The level of charges for additional items and services (i.e., items or services other than Components or certain services referenced in Subsection 3(b) above) shall be as provided to Fire Rescue by OneBlood in writing from time to time. The parties acknowledge that Fire Rescue is not obligated to procure any additional items or additional services from OneBlood; provided, however, that Fire Rescue will not obtain any such additional item or service from any other provider except in the event that OneBlood is unable to provide such additional item or service.

(d) Billing Policies; Interest on Overdue Amounts. During the Term OneBlood will bill Fire Rescue daily for all charges incurred by Fire Rescue throughout the month. All OneBlood charges are exclusive of any administrative fee charged by Fire Rescue to its patients or otherwise, and OneBlood shall have no input into the manner in which Fire Rescue prices any Component. To ensure that payments are processed efficiently for both parties, Fire Rescue agrees to remit payments via ACH credit to:

OneBlood, Inc.
Bank Routing Number (ABA): 021052053
Account Number: 97688250

- Please email ACH remittance information to accounts.receivable@oneblood.org and reference the customer number and invoice number(s) paid.

Payment terms are net thirty (30) days from the date of OneBlood's invoice. Amounts not paid by Fire Rescue within sixty (60) days following the date of OneBlood's invoice shall bear interest at a rate of 1.5% per month until paid. If OneBlood's invoice is past due more than sixty (60) days, OneBlood reserves the right to terminate this Agreement or suspend Services until payment is received.

(e) Sales Taxes. If at any time during the Term sales taxes shall become applicable to Components or Services provided to Fire Rescue under this Agreement, Fire Rescue shall be responsible for such taxes.

4. Delivery.

(a) Delivery of Red Blood Cells and Plasma Components. Delivery of Components to Fire Rescue will be accomplished by surface courier or commercial transport, whichever is quickest and safest, in OneBlood's discretion. Charges for such delivery shall be the responsibility of Fire Rescue. If an OneBlood courier is used for any such emergency delivery, then OneBlood's charge therefor shall be as set forth in Exhibit A; however, if a third-party courier is engaged by OneBlood for an emergency delivery, then the charge to Fire Rescue will be whatever OneBlood is required to pay to the third-party courier.

5. Delay. Neither party shall be responsible for delays, failures or omissions hereunder due to Force Majeure or due to any other cause beyond such party's control that could not be overcome with the exercise of diligence or commercially reasonable efforts. The time for performance shall be deemed extended for a period equal to the duration of such event. This provision shall not excuse any delay in the payment of money.

6. Records. OneBlood shall keep at its office accurate, full and complete books, records and accounts in respect of all Components provided to Fire Rescue hereunder. During the Term, OneBlood, upon reasonable request and at reasonable hours, shall make such books and records available for inspection by Fire Rescue personnel. All books and records maintained hereunder shall be maintained in accordance with the Standards and all other regulatory and accrediting agency requirements to which OneBlood and/or Fire Rescue is subject.

7. Term and Termination.

(a) Term. The term of this Agreement (the "Term") shall commence on the Effective Date and, unless sooner terminated in accordance with Subsection 7(b), shall extend until 11:59 p.m. on the calendar day immediately preceding the fifth anniversary of the Effective Date. Notwithstanding the foregoing, the parties shall review this Agreement from time to time as contemplated by AABB standard 4.2.1, and the parties may by written instrument amend this Agreement pursuant to Subsection 13(c) to incorporate any needed changes on which both OneBlood and Fire Rescue shall agree.

(b) Termination. This Agreement may be terminated as follows:

(1) Either party hereto may terminate this Agreement for Cause that shall not have been cured within sixty (60) calendar days following the non-terminating party's receipt of written notice thereof specifying the Cause. In the event of such termination under this Subsection 7(b)(2), any and all charges outstanding at termination will be due and payable within thirty (30) days following the date of OneBlood's final invoice.

(2) This Agreement may be terminated immediately by either Fire Rescue or OneBlood if any license that OneBlood needs in order to provide Components

in the manner contemplated hereby should be suspended or revoked, if either party shall fail to comply with a material requirement of Applicable Law as required by Subsection 11(a), or if OneBlood shall be in breach of Subsection 11(c). In the event of such termination under this Subsection 7(b)(3), any and all charges outstanding at termination will be due and payable within thirty (30) days following the date of OneBlood's final invoice.

(c) Survival of Obligations. All obligations of the parties for any period prior to termination or expiration of this Agreement that are intended to extend beyond the Term shall survive the termination of this Agreement, and any termination or expiration of this Agreement shall be without prejudice to any claims for damages or other rights against the other party that preceded or resulted from termination or expiration.

8. Disclaimer of Warranties. PURSUANT TO SECTION 672.316(5), FLORIDA STATUTES, THE PROCUREMENT, PROCESSING, STORAGE, DISTRIBUTION OR USE OF COMPONENTS IS DECLARED TO BE A SERVICE THAT DOES NOT CONSTITUTE A SALE OF A PRODUCT, WHETHER OR NOT ANY CONSIDERATION IS GIVEN THEREFOR, AND THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE SHALL NOT BE APPLICABLE. ONEBLOOD FURTHER DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, AS TO THE CONDITION OF COMPONENTS TO BE PROVIDED UNDER THIS AGREEMENT. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, ONEBLOOD SPECIFICALLY DISCLAIMS ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

9. Quality Assurance; Lookback.

(a) Quality Assurance. OneBlood shall be responsible for and will maintain a quality assurance program to ensure the quality of the Components and Services provided hereunder and its compliance with the rules and regulations to which it is subject. Quarterly reports will be provided to Fire Rescue documenting OneBlood's quality metrics as further described in Exhibit B. Without limiting the generality of the foregoing, OneBlood agrees that all Components provided to Fire Rescue hereunder shall have been tested in accordance with the relevant requirements of the FDA and the AABB, and all Services provided hereunder shall be in compliance with any accreditation requirements of the Joint Commission. OneBlood will promptly notify the Fire Rescue when changes to the program have been made that could affect the safety of Components or Services provided hereunder.

(b) Lookback. In compliance with the applicable rules of the FDA and/or the accrediting standards of the Joint Commission, OneBlood hereby agrees:

(1) to notify the affected Fire Rescue within three (3) calendar days after OneBlood determines that a donor of Components tests repeat reactive for conditions requiring donor lookback, but only if such donor made previous donations from which Components were sent to such Fire Rescue that still could remain in available inventory;

(2) to notify the affected Fire Rescue promptly if OneBlood should discover that certain potentially infectious Components have been made available to Fire Rescue;

(3) to notify the affected Fire Rescue within three (3) calendar days after OneBlood determines that it has supplied Components collected from a donor who tested negative at the time of the donation but subsequently tested reactive for HIV, HBV, or HCV on a later donation, or subsequently is determined by OneBlood to be at increased risk for transmitting HIV, HBV or HCV; and

(4) to notify the affected Fire Rescue, within forty-five (45) calendar days after the initial test, of the results of any supplemental screening test for HIV, HBV or HCV screening test, or any other follow-up testing required by the FDA, to complete the notification above in Subsection 10(b)(3).

The purpose of such notification is to enable the affected Fire Rescue to take proper health and safety steps to minimize further spread of infection. OneBlood shall comply with its obligations under the rules referenced in subsection (b) above in a manner consistent with its reasonable interpretation of such rules. Notification will be made by telephone followed up by written notification to be sent or given in the manner contemplated by Subsection 15(d) of this Agreement.

10. Insurance. Throughout the Term OneBlood and Fire Rescue shall each maintain at its own expense adequate levels of insurance. Without limiting the generality of the foregoing, OneBlood and Fire Rescue shall each procure and maintain in effect professional liability insurance with coverage of no less than \$1,000,000 per occurrence and \$3,000,000 annual aggregate. Each party shall, upon request, provide the other party with a certificate of insurance confirming such coverage and shall advise the other party promptly of the termination of such coverage or any material adverse modification of such coverage. If a party promptly notifies the other party that the notifying party is unable to purchase (other than at a cost that the notifying party reasonably considers prohibitive) the insurance required of the notifying party by this Agreement, then the other party shall have the right to terminate this Agreement upon ten (10) days' notice to the notifying party. If the second party shall have received any such notice and shall not have terminated this Agreement, neither the second party nor any insurer for the second party thereafter shall have any right to make a claim against the notifying party based solely upon its failure to provide the insurance coverage required of it under this Agreement.

11. Compliance and Representations.

(a) Compliance with Applicable Law. Both parties agree to comply with all applicable federal, state and local laws, statutes, regulations, codes, ordinances, rules and/or executive orders, as amended ("Applicable Law"). In the event a party fails to comply with a material requirement of Applicable Law, the non-breaching party shall immediately notify the breaching party and the non-breaching party may immediately terminate this Agreement in accordance with Subsection 7(b)(3).

(b) Regulatory Changes. Each party reserves the right to modify this Agreement, upon thirty (30) days' prior written notice to other party in the event that a change to

any Applicable Law, government or AABB policy or program, Joint Commission standard or standard of care is proposed or adopted, which affects Components, rates or obligations hereunder; provided, however, the parties acknowledge and agree that any modification of this Agreement, except for an adjustment of charges for Components pursuant to Subsection 3(b), a change to OneBlood's return policies, shall be set forth in a written amendment mutually agreed upon in accordance with Subsection 13(c).

(c) Representations as to Federal Health Care Programs. OneBlood represents and warrants to Fire Rescue that OneBlood (1) is not currently excluded, debarred, or otherwise ineligible to participate in Federal Health Care Programs; (2) is not a person who has been convicted of a criminal offense related to the provision of health care items or services but has not yet been excluded, debarred, or otherwise declared ineligible to participate in Federal Health Care Programs, and (3) is not, (A) to the best of its knowledge, under investigation, or (B) otherwise aware of any circumstances that, in either such case, reasonably could be expected to result in OneBlood's being excluded from participation in the Federal Health Care Programs. This shall be an ongoing representation and warranty during the Term, and OneBlood immediately shall notify Fire Rescue of any change in the status of this representation and warranty set forth in this Subsection 11(c). If OneBlood shall be in breach of this representation and warranty or if it otherwise should breach any of its obligations in this Subsection 11(c), Fire Rescue shall have the right to terminate this Agreement immediately in accordance with Subsection 7(b)(3).

(d) HIPAA and HITECH Requirements. Both parties agree to comply with any applicable HIPAA and HITECH Requirements. Without limiting the generality of the foregoing, the parties agree not to use or further disclose any Protected Health Information or Individually Identifiable Health Information in violation of any applicable HIPAA Requirements. To the extent that OneBlood is covered by the HIPAA Requirements, OneBlood will make its internal practices, books, and records relating to the use and disclosure of Protected Health Information available to HHS as required for determining compliance with the Federal Privacy Regulations.

(e) Compliance with Applicable Laws and Standards. OneBlood will ensure that the Services to be provided will be provided in accordance with: (1) the applicable standards, if any, of the Joint Commission; (2) the applicable standards of the FDA and the AABB; and (3) to the extent material, all other applicable federal, state, county and city laws, ordinances, codes, regulations, and rules governing the Services provided by OneBlood under this Agreement. OneBlood further agrees, to the extent necessary to permit Fire Rescue to receive reimbursement for Services rendered by OneBlood under this Agreement, to make available to the HHS, the GAO or their authorized representatives, the contract, and books, documents and records relating to the nature and extent of the costs hereunder for a period of four (4) years after the furnishing of Services under the Agreement. In addition, OneBlood hereby agrees that if Services hereunder involving a value or cost of \$10,000 or more over a 12-month period are to be provided to Fire Rescue by a subcontractor that is an affiliate of OneBlood, then OneBlood will cause such affiliated subcontractor, upon request, to make available to HHS, the GAO, or their authorized representatives the contract, books, documents, and records relating to the nature and extent of the costs thereunder for a period of four (4) years after the furnishing of Services thereunder.

(f) Statement of Compliance. OneBlood's quality system is defined, documented, implemented and maintained in compliance with current good manufacturing

requirements and AABB standards. OneBlood is accredited by the AABB in donor center activities and in immunohematology reference laboratory activities, accredited by the Centers for Medicare & Medicaid Services (CMS), licensed by the State of Florida Agency for Health Care Administration (AHCA), and licensed and registered by the FDA. OneBlood's laboratory director approves all methods used by each laboratory; where applicable, FDA-licensed or approved test kits and reagents are used. Performance of testing and interpretation of results are in accordance with manufacturer's instructions. As required by the Clinical Laboratory Improvement Amendments of 1988 (CLIA) rules in 42 C.F.R. Part 493, all testing personnel are qualified and deemed competent to perform high complexity testing, and the laboratory participates in a proficiency testing program for each tested analyte. OneBlood has agreements in place for outsourced activities and monitors compliance with these agreements through supplier qualification audits.

(g) Statement of Compliance with Bacterial Detection Requirements. In compliance with AABB standard 5.1.5.1 for a method to detect bacteria in platelet components, all of OneBlood's platelets, pheresis and whole blood derived pre-pooled platelets are cultured using the Biomerieux BacT/Alert Microbial Detection System, an FDA-approved testing method.

(h) Confidential Information. During the course of performing this Agreement, Fire Rescue may from time to time receive confidential information about OneBlood, and OneBlood may from time to time receive confidential information about Fire Rescue, including but not limited to, information about its business, customers, patients, patient records, practices, procedures, strategies, organization, financial data (including but not limited to charges for Components and Services) and other related information ("Confidential Information"). Each party agrees that Confidential Information disclosed to, or otherwise received by, it will be treated in accordance with the following:

(1) Each receiving party shall (A) hold in strict confidence the Confidential Information of the disclosing party; (B) not use or disclose any such Confidential Information to a third party for any purpose other than the limited purpose of performing its obligations under this Agreement without the prior express written consent of the disclosing party; and (C) disclose Confidential Information only as authorized or required by law or as may be authorized by the disclosing party or pursuant to a court order or, with respect to patient records, by written consent of the patient or the patient's representative;

(2) If a receiving party is served with a subpoena or other legal process concerning Confidential Information of the disclosing party, then the receiving party shall, to the extent permitted by law, immediately (not more than 48 hours after the receipt) notify the disclosing party and shall reasonably cooperate with it in any lawful effort to contest the legal validity of such process which the disclosing party may wish to pursue.

(3) This subsection (h) does not affect a receiving party's right to use or disclose information that is (A) developed by the receiving party independently from the disclosing party's Confidential Information, as supported by the receiving party's written records; (B) obtained without restriction by the receiving party from a third party who had

a legal right to make such disclosure; or (C) publicly available other than through the fault or negligence of the receiving party.

12. No Joint Venture, Employment, or Agency Relationship. Nothing contained herein shall be construed to create a joint venture, employer/employee, or principal/agent relationship between Fire Rescue and OneBlood. It is specifically agreed that OneBlood is and at all times shall remain an independent contractor rendering services to Fire Rescue. In performing their duties, OneBlood personnel shall take direction only from OneBlood supervisors and not from the staff or administration of Fire Rescue.

(3) The parties shall be deemed to have participated equally in the preparation of this Agreement, and this Agreement shall not be construed more strictly against one party than against the other.

(c) Entire Agreement; Modification of Agreement. This Agreement represents the entire understanding and agreement between the parties with respect to the subject matter hereof, and supersedes all of the negotiations, understandings and representations (if any) made by and between such parties and all prior oral and written agreements between the parties (including their predecessor legal entities) with respect to the subject matter hereof. Without limiting the generality of the foregoing, as of the Effective Date this Agreement shall supersede any and all other existing agreements between OneBlood or any of its predecessor legal entities, on the one hand, and Fire Rescue or any of its predecessor legal entities, on the other hand. In the event of any discrepancy between the terms of this Agreement and the terms of any Business Associate Agreement that may be executed between the parties hereto, the terms of this Agreement shall control and supersede the terms of the Business Associate Agreement, except that both agreements shall be interpreted in a manner that enables the parties to comply with HIPAA and HITECH. None of the terms or provisions hereof may be amended, supplemented, waived or changed orally, but only by a writing signed by OneBlood and Fire Rescue and making specific reference to this Agreement; provided, that OneBlood may change its return policies, its charge levels in Exhibit A or its quality metrics in Exhibit B by providing notice to Fire Rescue as set forth herein; and provided, further, that the amendment of this Agreement to include an additional facility owned or controlled by Fire Rescue (and the resulting amendment of the definition of "Fire

Rescue” in Section 1) shall also require the execution of a joinder in this Agreement by such new facility’s administration.

Such notices shall be personally delivered, sent by registered or certified U.S. mail, postage prepaid with return receipt requested, sent via a nationally recognized delivery service, or sent by facsimile or electronic mail with confirmation. **Town of Jupiter
("Fire Rescue")**

BUSINESS ASSOCIATE AGREEMENT

THIS BUSINESS ASSOCIATE AGREEMENT (this “Agreement”), effective _____ (the “Effective Date”), is entered into by and between **TOWN OF JUPITER**, a Florida municipal corporation with an address of 210 Military Trail Jupiter, Florida 33458 (the “Town”) and **ONEBLOOD, INC.**, a Florida not-for-profit corporation with an address at 8669 Commodity Circle, Orlando, Florida 32819 (“OneBlood”) (each a “Party” and collectively the “Parties”).

WHEREAS, the Town has its own Fire Rescue Department (“Business Associate”), and OneBlood is a blood bank engaged in the procurement, storage, and distribution of blood and blood components and in providing certain related services;

WHEREAS, the Parties are entering into an agreement under which the Business Associate will perform certain specified services for or on behalf of OneBlood (the “Services”);

WHEREAS, OneBlood may be subject to the Standards for Privacy of Individually Identifiable Health Information at 45 C.F.R. Parts 160 and 164 (the “Privacy Rule”) and Health Insurance Reform Security Standards at 45 C.F.R. Parts 160, 162, and 164 (the “Security Rule”), promulgated pursuant to the Health Insurance Portability and Accountability Act of 1996 (“HIPAA”) and the Health Information Technology for Economic and Clinical Health Act of 2009 (the “HITECH Act”); provided, however, that OneBlood does not, by virtue of entering into this Agreement, acknowledge that it is subject to the foregoing rules and acts;

WHEREAS, in providing the Services on behalf of OneBlood, Business Associate may come into contact with, use or disclose Protected Health Information (“PHI”) of individuals that may be maintained by OneBlood;

WHEREAS, this Agreement sets forth the terms and conditions pursuant to which the Business Associate must maintain, protect, create, use and/or disclose the PHI that is provided to, or is created or received by, it from or on behalf of OneBlood; and

WHEREAS, the Parties intend that this Agreement comply with the provisions in the Privacy Rule, the Security Rule and the HITECH Act requiring business associates to provide adequate assurances to a covered entity with respect to the business associate’s duties to protect the confidentiality of PHI.

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the Parties hereby agree as follows:

1. DEFINITIONS. Terms used, but not otherwise defined in this Agreement, shall have the same meaning as those terms in the Privacy Rule, the Security Rule and the HITECH Act.

1.1 Breach. Per its definition at 45 C.F.R. § 164.402, “Breach” means the acquisition, access, use, or disclosure of PHI in a manner not permitted under Subpart E of 45 C.F.R. Part 164 which compromises the security or privacy of the PHI. Breach excludes (a) any unintentional acquisition, access, or use of PHI by a workforce member or person acting under the authority of

OneBlood or Business Associate, if such acquisition, access, or use was made in good faith and within the scope of authority and does not result in further use or disclosure in a manner not permitted under Subpart E of 45 C.F.R. Part 164; (b) any inadvertent disclosure by a person who is authorized to access PHI at OneBlood or Business Associate to another person authorized to access PHI at OneBlood or Business Associate, or organized health care arrangement in which OneBlood participates, and the information received as a result of such disclosure is not further used or disclosed in a manner not permitted under Subpart E of 45 C.F.R. Part 164; and (c) a disclosure of PHI where OneBlood has a good faith belief that an unauthorized person to whom the disclosure was made would not reasonably have been able to retain such information.

Except as provided in this Section 1.1 (Breach), an acquisition, access, use, or disclosure of PHI in a manner not permitted under Subpart E of 45 C.F.R. Part 164 is presumed to be a Breach unless OneBlood demonstrates that there is a low probability that the PHI has been compromised based on a risk assessment of at least the following factors: (a) the nature and extent of the PHI involved, including the types of identifiers and the likelihood of re-identification; (b) the unauthorized person who used the PHI or to whom the disclosure was made; (c) whether the PHI was actually acquired or viewed; and (d) the extent to which the risk to the PHI has been mitigated.

1.2 Business Associate. “Business Associate” means the named Business Associate herein and any of its affiliates (whether by contract or ownership) and/or parent, sister, or subsidiary companies.

1.3 Designated Record Set. Per its definition at 45 C.F.R. § 164.501, “Designated Record Set” means a group of records maintained by or for a covered entity, as defined at 45 C.F.R. § 160.103, that is: (a) the medical records and billing records about Individuals maintained by or for a covered health care provider; (b) the enrollment, payment, claims adjudication, and case or medical management record systems maintained by or for a health plan; or (c) used, in whole or in part, by or for the covered entity to make decisions about Individuals. For purposes of this Section 1.3 (Designated Record Set), the term record means any item, collection, or grouping of information that includes PHI and is maintained, collected, used, or disseminated by or for a covered entity.

1.4 Discovers, Discovered or Discovery. Per 45 C.F.R. § 164.410, “Discovers, Discovered or Discovery” means, with respect to a Breach, the first day on which the Breach is known to the Business Associate or, by exercising reasonable diligence, would have been known to the Business Associate. Business Associate shall be deemed to have knowledge of a Breach if the Breach is known, or by exercising reasonable diligence would have been known, to any person, other than the person committing the breach, who is an employee, officer, or other agent of the Business Associate (determined in accordance with the federal common law of agency).

1.5 Individual. Per its definition at 45 C.F.R. § 160.103, “Individual” means the person who is the subject of PHI. The definition includes a person who qualifies as a personal representative in accordance with 45 C.F.R. § 164.502(g).

1.6 Individually Identifiable Health Information. Per its definition at 45 C.F.R. § 160.103, “Individually Identifiable Health Information” means information that is a subset of health information, including demographic information collected from an Individual, and (a) is created

or received by a health care provider, health plan, employer, or health care clearinghouse; and (b) relates to the past, present, or future physical or mental health or condition of an Individual; the provision of health care to an Individual; or the past, present, or future payment for the provision of health care to an Individual; and either identifies the Individual or with respect to which there is a reasonable basis to believe the information can be used to identify the Individual.

1.7 OneBlood. “OneBlood” means OneBlood, Inc., a Florida not-for-profit corporation, and its facilities, affiliates (whether by contract or ownership), and/or subsidiary companies. For purposes of ensuring compliance with HIPAA and the HITECH Act, OneBlood shall be considered a “covered entity” in connection with this Agreement and the Parties’ obligations hereunder; however, OneBlood does not, by virtue of entering into this Agreement, acknowledge that it is subject to the foregoing acts.

1.8 Personal Information. Per its definition at Florida Statute § 501.171, “Personal Information” means an Individual’s first name, first initial, and last name, or any middle name and last name, in combination with any one or more of the following data elements when the data elements are not encrypted:

Per its definition at 45 C.F.R. § 160.103, “Protected Health Information” or “PHI” means Individually Identifiable Health Information that is (a) transmitted by electronic media; (b) maintained in electronic media; or (c) transmitted or maintained in any other form or medium. The definition excludes Individually Identifiable Health Information (a) in education records covered by the Family Educational Rights and Privacy Act, as amended, 20 U.S.C. 1232g; (b) in records described at 20 U.S.C. 1232g(a)(4)(B)(iv); (c) in employment records held by a covered entity in its role as employer; and (d) regarding a person

who has been deceased for more than fifty (50) years. For the purposes of this Agreement PHI and Personal Information shall be treated as the same and any requirements or obligations relating to PHI shall also apply to Personal Information.

1.10 Required by Law. Per its definition at 45 C.F.R. § 164.103, “Required by Law” means a mandate contained in law that compels an entity to make a use or disclosure of PHI and that is enforceable in a court of law. The definition includes, but is not limited to, court orders and court-ordered warrants; subpoenas or summons issued by a court, grand jury, a governmental or tribal inspector general, or an administrative body authorized to require the production of information; a civil or an authorized investigative demand; Medicare conditions of participation with respect to health care providers participating in the program; and statutes or regulations that require the production of information, including statutes or regulations that require such information if payment is sought under a government program providing public benefits.

Per its definition at 45 C.F.R. § 164.402, “Unsecured Protected Health Information” means PHI that is not rendered unusable, unreadable, or indecipherable to unauthorized persons through the use of a technology or methodology specified by the Secretary in the guidance issued under Section 13402(h)(2) of Public Law 111-5.

e. Business Associate will make its internal practices, books, and records relating to the use and disclosure of PHI, available to the Secretary for purposes of the Secretary determining OneBlood's compliance with the Privacy Rule and the Security Rule.

g. Business Associate shall document disclosures of PHI and information related to such disclosures, and make such documentation and information available to OneBlood as would be necessary for OneBlood to timely respond to a request by an Individual for an accounting of disclosures of PHI in accordance with 45 C.F.R. § 164.528, or an accounting of disclosures made through an electronic health record in accordance with the HITECH Act, if applicable. In the event a request is received directly by the Business Associate from an Individual requesting an accounting of disclosures of PHI, the Business Associate will notify OneBlood within fifteen (15) calendar days of Business Associate's receipt of the request so that OneBlood may respond to such request.

h. To the extent Business Associate maintains PHI in a Designated Record Set, Business Associate agrees to provide PHI in a Designated Record Set created or maintained by the Business Associate to OneBlood in order to comply with an Individual's request for access to inspect and obtain a copy of PHI in accordance with 45 C.F.R. § 164.524. i. To the extent Business Associate maintains PHI in a Designated Record Set, Business Associate agrees to make any amendment(s) to PHI as OneBlood directs pursuant to 45 C.F.R. § 164.526 or take other measures as necessary to satisfy OneBlood's obligations under 45 C.F.R. § 164.526. In the event a request is received directly by the Business Associate from an Individual requesting an amendment to the PHI in that Individual's Designated Record Set whether or not maintained by the Business Associate, Business Associate will notify OneBlood within fifteen (15) calendar days of Business Associate's receipt of the request so that OneBlood may respond to such request,

j. To the extent Business Associate is to carry out one or more of OneBlood's obligation(s) under Subpart E of 45 C.F.R. Part 164, Business Associate shall comply with the requirements of Subpart E of 45 C.F.R. Part 164 that apply to OneBlood in the performance of such obligation(s).

k. Business Associate will disclose to, or request from, its subcontractors, agents or other third parties, only the minimum PHI necessary to perform or fulfill a specific function required or permitted by this Agreement.

l. Business Associate also understands that to the extent required by the HITECH Act and related regulations, Business Associate is subject to the Privacy and Security Rules to the same extent as OneBlood.

2.2 Reporting Obligations of Business Associate. With regard to its use and/or disclosure of PHI or Personal Information, the Business Associate hereby agrees to do the following:

b. 5. REPRESENTATIONS AND WARRANTIES

5.1 Mutual Representations and Warranties of the Parties. Each Party represents and warrants to the other Party that:

a. It is duly organized, validly existing, and in good standing under the laws of the jurisdiction in which it is organized or licensed, it has the full power to enter into this Agreement and to perform its obligations hereunder, and that the performance by it of its obligations under this Agreement have been duly authorized by all necessary corporate or other actions and will not violate any provision of any license, corporate charter or bylaws.

b. Neither the execution of this Agreement, nor its performance hereunder, will directly or indirectly violate or interfere with the terms of another agreement to which it is a party, or give any governmental entity the right to suspend, terminate, or modify any of its governmental authorizations or assets required for its performance hereunder. Each Party represents and warrants to the other Party that it will not enter into any agreement the execution and/or performance of which would violate or interfere with this Agreement.

c. All of its employees, agents, representatives and members of its workforce, whose services may be used to fulfill obligations under this Agreement are or shall be appropriately informed of the terms of this Agreement and are under legal obligation to each Party, respectively, by contract or otherwise, sufficient to enable each Party to fully comply with all provisions of this Agreement including, without limitation, any limitations on the otherwise permitted uses and disclosures of an Individual's PHI that OneBlood has agreed to and which it has communicated to the Business Associate in writing and in a timely manner.

d. Neither the Party, nor its shareholders, members, directors, officers, agents, employees or members of its workforce have been excluded or served a notice of exclusion or have been served with a notice of proposed exclusion, or have committed any acts which are cause for exclusion, from participation in, or had any sanctions, or civil or criminal penalties imposed under, any federal or state healthcare program, including but not limited to Medicare or Medicaid, or have been convicted, under federal or state law (including without limitation a plea of nolo contendere or participation in a first offender deterred adjudication or other arrangement whereby a judgment of conviction has been withheld), of a criminal offense related to (i) the neglect or abuse of a patient, (ii) the delivery of an item or service, including the performance of management or administrative services related to the delivery of an item or service, under a federal or state healthcare program, (iii) fraud, theft, embezzlement, breach of fiduciary responsibility, or other financial misconduct in connection with the delivery of a healthcare item or service or with respect to any act or omission in any program operated by or financed in whole or in part by any federal, state or local government agency, (iv) the unlawful, manufacture, distribution, prescription or dispensing of a controlled substance, or (v) interference with or obstruction of any investigation into any criminal offense described in (i) through (iv) above. Each Party further agrees to notify the other Party immediately after the Party becomes aware that any of the foregoing representation and warranties may be inaccurate or may become incorrect.

e. Business Associate agrees and acknowledges that it will not store any patient information in an offsite physical or virtual environment, including through a third-party of subcontracted computing facility or entity providing cloud computing services, that is outside of the continental United States or its territories or Canada.

6. TERM AND TERMINATION

6.1 Term. This Agreement shall become effective on the Effective Date and shall continue in effect until the later of (a) the termination of this Agreement by mutual agreement of the Parties or pursuant to Section 6.2 (Termination for Cause); or (b) when all of the PHI provided by OneBlood to Business Associate or created or received by Business Associate on behalf of OneBlood is destroyed or returned to OneBlood, or, if it is not feasible to return or destroy PHI, when protections are extended to such information, in accordance with the termination provisions of Section 6 (Term and Termination). In addition, certain provisions and requirements of this Agreement shall survive its expiration or other termination in accordance with Section 6 (Term and Termination).

6.2 Termination for Cause. Upon OneBlood's knowledge of an act or pattern of activity that constitutes a violation of a material term of this Agreement by Business Associate, or Business Associate's knowledge of an act or pattern of activity that constitutes a violation of a material term of this Agreement by OneBlood, either OneBlood or Business Associate, as applicable, shall provide the Party in violation with thirty (30) days' written notice of the existence of an alleged violation and an opportunity to cure the alleged material violation upon mutually agreeable terms. If cure is not possible or if the Party in violation does not cure or end the violation, the non-violating Party may immediately terminate of this Agreement and any related agreements.

6.3 Effect of Termination. Upon termination of the Agreement, Business Associate agrees to return or destroy all PHI and retain no copies, if it is feasible to do so. Prior to doing so, the

Business Associate further agrees to recover any PHI provided to the subcontractors or agents by Business Associate and in the possession of its subcontractors or agents. If it is not feasible for the Business Associate to return or destroy said PHI, the Business Associate will notify OneBlood in writing. If OneBlood agrees that return or destruction is not feasible, Business Associate will extend any and all protections, limitations and restrictions contained in this Agreement to the Business Associate's use and/or disclosure of any PHI retained after the termination of this Agreement, and will limit any further uses and/or disclosures to the purposes that make the return or destruction of the PHI not feasible.

7. INSURANCE AND INDEMNIFICATION

7.1 Insurance. Notwithstanding the insurance requirements contained in any other contractual agreement between OneBlood and the Business Associate, Business Associate shall obtain and maintain, at its own expense, at all times during the term of the Services Agreement, commercial general liability insurance coverage with a minimum of \$1,000,000 per occurrence and \$2,000,000 annual aggregate, which coverage by its terms shall be applicable to, and not exclude coverage for Business Associate's indemnification obligations under this Agreement. OneBlood shall be named as an additional insured on such insurance policies. Business Associate shall provide OneBlood with a certificate evidencing such coverage and shall notify OneBlood in writing at least thirty days prior to any cancellation or reduction in coverage.

7.2 Indemnification. Each Party hereby agrees to indemnify, defend and hold harmless the other Party from and against any liabilities imposed on such other Party arising from any act or omission of the indemnifying Party, its elected officials, agents, employees, directors, contractors, subcontractors, officers, or other members of its workforce with respect to their uses and/or disclosures of PHI in the course of performing services under this Agreement or any related agreement, even if the liability is not directly to a third party, but is imposed as a penalty under HIPAA. This indemnification obligation applies without limitation where the cost or damages sustained by a Party arise from a liability to a third party or from a penalty imposed by a governmental agency for failure to comply with a statutory or regulatory obligation. Indemnification includes any costs incurred by a Party to respond to a complaint based on the indemnifying Party's conduct or other actions it needs to take to avoid being penalized if the matter of a penalty arises as a result of the indemnifying Party's conduct. Accordingly, the indemnifying Party shall reimburse the other Party for any and all actual and direct losses, liabilities, lost profits, fines, penalties, costs or expenses (including reasonable attorneys' fees) which may for any reason be imposed by reason of any suit, claim, action, proceeding or demand by any third party or any governmental agency which results from or relates to the indemnifying Party's acts or omissions, including Breach of PHI, in connection with indemnifying Party's representations, duties and obligations of hereunder. The indemnifying Party's obligation to indemnify the other Party shall survive the expiration or termination of this Agreement for any reason.

8.1 Prior Agreements. This Agreement supersedes all prior business associate agreements between the Parties.

8.2 Survival. Any provisions which remain to be performed, or by their nature are intended to be applicable, following any expiration or termination of this Agreement shall remain in full force and effect after such expiration/termination.

8.3 Amendments; Waiver. This Agreement may not be modified, nor shall any provision hereof be waived or amended, except in a writing duly signed by authorized representatives of the Parties. A waiver with respect to one event shall not be construed as continuing, or as a bar to or waiver of any right or remedy as to subsequent events.

8.4 Inconsistencies. To the extent there are any inconsistencies between this Agreement and the terms of the agreement for the Services with respect to the uses and disclosures of PHI, the terms of this Agreement will prevail.

8.5 Equitable Relief. Business Associate acknowledges that any breach of confidentiality obligations will result in irreparable damage for which there may be no adequate remedy at law. Therefore, it is agreed that OneBlood shall be entitled to equitable relief, including, but not limited to, an injunction enjoining any such breach. Such injunction shall be without prejudice to any other right or remedy to which OneBlood may be entitled, including damages.

8.6 Governing Law. To the extent not preempted by federal law, the laws of the state of Florida shall govern this Agreement without regard to the conflict of laws provisions thereof.

8.7 No Third Party Beneficiaries. Nothing express or implied in this Agreement is intended to confer, nor shall anything herein confer, upon any person other than the Parties and the respective successors or assigns of the Parties, any rights, remedies, obligations, or liabilities whatsoever.

8.8 No Offshore Work. In performing the functions, activities or Services for, or on behalf of, OneBlood, Business Associate shall not, and shall not permit any of its subcontractors or agents to transmit or make available any PHI to any entity or individual outside the United States without the prior written consent of OneBlood.

TOWN OF JUPITER
Approval to Amend Chapter 14 of the Town Code, Parks and Recreation

DATE	October 21, 2025
TO	Honorable Mayor and Members of Town Council
THRU	Frank Kitzerow, Town Manager
FROM	Donald Hennessy, Interim Chief of Police
SUBJECT	Ordinance 12-25, First Reading, Approval to Amend Chapter 14 of the Town Code, Parks and Recreation (Second Reading is on 11/6/25)

EXECUTIVE SUMMARY

In January of 2025, an inter-departmental team comprised of Police Department and Parks and Recreation staff began an analysis of Chapter 14 of the existing Town Code relating to the Parks and Recreation Department. The intent of this review was to ensure comprehensive regulations were in place to protect the safety and security of residents and park patrons and preserve the condition and appearance of park facilities. The Palm Beach County Code of Ordinances relating to Parks and Recreation was reviewed, along with the codes from other local municipalities. In order to promote consistency in enforcement between County and Town Parks, language from Palm Beach County Ordinances was included in the proposal where applicable.

The current Town Code relating to Parks and Recreation was last revised in 1992. The current code contains limited regulations, as it has not been updated in over 33 years. Proposed modifications to Chapter 14 will increase Jupiter Police Officers' ability to address quality of life and safety issues within the Town parks.

A resolution will be presented concurrently with the second reading of this ordinance, proposing modifications to the Fine and Fee Schedule. This modification will allow for the inclusion of selected sections on the Municipal Code Citation, replacing violations that are not frequently utilized. The addition of these sections will facilitate on-site enforcement of violations of park regulations.

If approved, Town staff is prepared to include the updated regulations on entry and other park signage, ensuring that any restrictions are properly posted.

Revisions in the proposed, attached Ordinance 25-12 are represented by underline for new text and strikethrough for deleted text. The Town Attorney has reviewed the attached documents and finds them to be in acceptable form.

ANALYSIS

Adoption of Ordinance 25-12 which includes revisions to Chapter 14 of the Town of Jupiter Code of Ordinances will enhance staff's ability to ensure Town Parks can be enjoyed safely by all residents and patrons. The second reading of Ordinance 25-12 is scheduled for the November 6, 2025 Town Council meeting.

TOWN OF JUPITER
Notice to Contemplate a Non-ad Valorem Assessment for Fire Protection Services

DATE	October 21, 2025
TO	Honorable Mayor and Members of Town Council
THRU	Frank Kitzerow, Town Manager
FROM	Scott Reynolds, Finance Director
SUBJECT	<u>Resolution 109-25</u> , notification that the Town is contemplating a non-ad valorem assessment for the cost of providing fire protection within the incorporated area of the Town commencing on October 1, 2026

EXECUTIVE SUMMARY

In anticipation of the Town potentially implementing a special assessment program to fund fire protection services, the Town is required to hold a public hearing and adopt a resolution of intent to use the uniform method of collection in the calendar year prior to any such collection, which is 2025 for the Town.

This resolution does not obligate the Town to adopt a special assessment or use the uniform method. It provides notice of the potential of the special assessment and must be adopted before January 1, 2026 and transmitted to the Palm Beach County Tax Collector, the Palm Beach County Property Appraiser, and the Florida Department of Revenue no later than January 10, 2026.

To inform residents and business owners about the potential non-ad valorem assessment, the Town has created a page on its website containing frequently asked questions (FAQs) and has developed a pamphlet with the same. Information will also be shared through Town emails and social media posts, which will direct readers to the webpage.

The Town Attorney has reviewed the attached document and finds it to be in acceptable form.

ANALYSIS

Section 197.3632, Florida Statutes, requires that the Town hold a public hearing and adopt a resolution of intent to use the uniform method of collection for any assessment program in the calendar year prior to any such collection. This must be completed in 2025, prior to January 1, 2026.

Section 197.3632 also requires that the notice of the public hearing to adopt the resolution of intent be published in a newspaper of general circulation once a week for the four consecutive weeks immediately preceding the date of the hearing.

By adopting the resolution, the Town is simply reserving the right to use the tax bill collection method beginning in November of 2026.

The permit authorizes the partial demolition of 480 sq. ft of an existing floating dock. The existing gangway will be removed and reinstalled after construction to connect the southern travel lift pier to the existing floating dock that will remain. The permit authorizes the following activities: (1) the installation of a 55' x 12' concrete submerged land pier (2) existing travel lift piers (990 sq. ft. total); (2) the installation of eight (8) underpinned pier supports on the existing portion of the travel lift piers, four on each pier, and (3) the installation of two (2) fender piles seaward of the travel lift pier extensions. Entire overwater structure totals 736 sq. ft. The permit authorizes 1,216 square feet of work within other surface waters. The number of wet slips at this marina remains unchanged at 10 slips. The modification of the sovereignty submerged land lease is to include line description of the above-mentioned activities, all of which will occur within the boundaries of the existing sovereignty submerged land lease. The activities authorized by this Permit and state-owned submerged lands authorization are located within Intracoastal Waterway, Class III Waters, adjacent to 1940 Avenue C, Riviera Beach, FL, 33404 (Section 28, Township 42 South, Range 13 East), in Palm Beach County (Latitude N 26°46'43.0422", Longitude W 80°3'12.7716"). The application is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at 3301 Gun Club Road, MSC 7210-1, West Palm Beach, FL 33406. The Department's agency action shall become final unless a timely petition for an administrative hearing is filed under Sections 120.569 and 120.57, F.S., before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below. A person whose substantial interests are affected by the Department's permitting decision may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S., must be filed within twenty-one days of publication of the notice or receipt of the written notice, whichever occurs first. The petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and to request an administrative hearing. A petition that does not dispute the material facts on which the Department's action is based must contain the following information:

- The name and address of each agency affected and each agency's file or identification number, if known;
- The name, address, any e-mail address, any facsimile number, and telephone number of the petitioner, if the petitioner is not represented by an attorney or a qualified representative; the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination;
- A statement of when and how the petitioner received notice of the agency decision;
- A statement of all disputed issues of material fact. If there are none, the petition must so indicate;
- A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action;
- A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action, including an explanation of how the alleged facts relate to the specific rules or statutes; and
- A statement of the relief sought by the petitioner, stating precisely the action the petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts on which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above. Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above. Mediation is not available in this proceeding.

Any party to this order has the right to seek judicial review of it under Section 120.68, F.S., by filing a notice of appeal under Rule 9.0 of the Florida Rules of Appellate Procedure with the clerk of the Department in the Office of General Counsel, Mail Station 35, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice of appeal must be filed within thirty days after this order is filed with the clerk of the Department.

PUBLIC NOTICE OF INTENT TO ISSUE AIR CONSTRUCTION PERMIT

Florida Department of Environmental Protection
Division of Air Resource Management, Permit Review Section
Draft Air Permit No. 0990019-035-AC
Osceola Farms Company, Osceola Farms Company

Applicant: The applicant for this project is Osceola Farms Company. The applicant's authorized representative and mailing address is: Jose Gonzalez, Vice President of Industrial Operations, Osceola Farms Company, Osceola Farms Company, 3900 Commonwealth Boulevard, MS 35, Tallahassee, FL 32399-3000.

Facility Location: Osceola Farms Company operates the existing Osceola Farms Company, which is in Palm Beach County at 32298 State Road 700 in Pahokee, Florida.

Project: The facility consists primarily of 5 steam boilers (Mill Boiler Nos. 2-6), a lime storage silo, a sugarcane processing facility, and an emergency engine driven fire pump. Sugarcane is processed and raw juice from the sugarcane is separated and transferred to the boiling house to produce raw sugar and molasses. Raw sugar is stored and prepared for offsite shipping via truck. The processed sugarcane (i.e., bagasse) is used as a primary fuel for Mill Boiler Nos. 2-6, all of which supply steam for the boiling house. The boilers burn and generate electricity for the facility. Each boiler can also fire No. 6 fuel oil and clean wood chips. Mill Boiler Nos. 2, 4, and 5 can fire firewood, lumber, and diesel as startup fuels. Mill Boiler Nos. 2-6 are equipped with overfire air (OFA) and wet scrubber systems for nitrogen oxide (NOX) and particulate matter (PM) emissions control, respectively. Lime from the lime storage silo is used in the sugar manufacturing process. PM emissions from lime handling operations are controlled by a fabric filter baghouse. The applicant is proposing to install and operate a selective noncatalytic reduction (SNCR) system, consisting of a urea injection system, urea storage tank, piping system, and control valves, in Mill Boiler No. 3 as needed for control of NOX emissions. The applicant proposes to use the SNCR system as needed to give Boiler No. 3 a wider margin of error during compliance tests and to run the boiler at higher operating capacities without risking violation of NOX standards.

Permitting Authority: Applications for air construction permits are subject to review in accordance with the provisions of Chapter 403, Florida Statutes (F.S.) and Chapters 62-4, 62-210 and 62-212, of the Florida Administrative Code (F.A.C.). The proposed project is not exempt from air permitting requirements and an air permit is required to perform the proposed work. The Permitting Authority responsible for making a permit determination for this project is the Permit Review Section in the Department of Environmental Protection's Division of Air Resource Management. The Permitting Authority's physical address is: 2600 Blair Stone Road, Tallahassee, Florida. The Permitting Authority's mailing address is: 2600 Blair Stone Road, MS #5505, Tallahassee, Florida 32399-3000. The Permitting Authority's phone number is 850-717-9000.

Project File: A complete project file is available for public inspection during the normal business hours of 8:00 a.m. to 5:00 p.m., Monday through Friday (except legal holidays), at the address indicated above for the Permitting Authority. The complete project file includes the Draft Permit, the Technical Evaluation and Preliminary Determination, the application and information submitted by the applicant (exclusive of confidential records under Section 333.11, F.S.). Interested persons may contact the Permitting Authority's project engineer for additional information at the address and phone number listed above. Non-Ad Valorem Assessment Study for Jupiter Fire Services

CENTENNIAL
CELEBRATION
1925 - 2025

Overview

- The Town is implementing a new fire rescue department, which will begin to provide service on October 1, 2026.
- To fund the new fire rescue department, the Town is exploring all funding sources.
- Options to fund the new department include:
 - ad valorem funding
 - a non-ad valorem assessment
 - permit revenue
 - medical transport funding
 - a combination of all of the above
- The goal is to determine the best funding sources for the Jupiter Fire Rescue Department that provide the lowest cost to Jupiter property owners.
- Resolution 109-25 and today's presentation specifically address the non-ad valorem assessment option.

Why a Non-Ad Valorem Assessment

- A non-ad valorem assessment is a steady funding source that is not dependent upon economic conditions.
- The assessment is a fair and equitable way to pay for fire services since this funding method is directly tied to the property and type of dwelling that benefits from the service.
- This is a common funding method used all over Florida to fund fire services.
- The fire assessment **can only** fund fire-related expenses. It **can not** fund emergency medical services.
- The assessment requires an examination and accounting for all expenses, which creates transparency for the rate payer.

If adopted, the non-ad valorem assessment **will replace** the “Jupiter Fire/Rescue” charge on a property owner’s tax bill **and will be lower than** what the property owner currently pays.
